## ARMY BALLOON WINS PITTSBURGH RACE—TWO FATALITIES

### Let Them Throw Boulders to Make Dam, Rogers Says

(Special To The News)

BEVERLY HILLS, Cal., May 31.—How would this do as a compromise way to build Boulder Dam?

Put California senators and congressmen on their side of the river and Arizona on their side and let 'em start throwing boulders at each other, and in a year there would be enough rocks in the river to make Boulder Dam.

The boys are all on their way home now to take care of their campaign contributions.

It's a tough year for the voter. Every man is trying to be elected as cheap as possible. Even Pennsylvania and Illinois votes was never bringing as little as they are this year. It won't hardly pay a man to vote.

Yours,
WILL ROGERS.

### PA NEWC OBSERVES

Pa Newc. scanned the skies last evening for the possibility that some of the balloons entered in the race which started at Pittsburgh might be headed this way, but got nary a glimpse of any of the balloons. Do not believe that any came this way.

Quite a large number of New Castlelites stuck close enough to the radio on Wednesday afternoon to get the Memorial Day address made at Gettysburgh by President Calvin Coolidge. Reception here was quite clear during the afternoon.

Battery B. Memorial at Mt. Jackson was drapped with a wreath on Memorial Day and also surrounded by a number of flags. The memorial has not as yet been moved to the top of the hill as planned a year or so ago however..

Worst places in Lawrence county for persons walking on the improved road is in Oakland. Seems to Pa Newc that some sidewalks should be provided along the highway through the main section of Oakland. Driving is difficult through that section when 20 or 30 pedestrians are sauntering along the highway and auto traffic is heavy.

Community chest pledges are due tomorrow. Subscribers to the fund will do a real service by meeting their obligations promptly according to those in charge of the chest funds.

The vacation spin of many a burgher was sadly neglected Memorial Day because of the cold weather. It seemed much nicer they say to sit at home and hug the gas grate.

And speaking of holidays all the housewives of the city seemed to take Memorial Day off, declared a strike and with their better halves swooped down on the unsuspecting restauranteer. As a result those estranged souls who eat regularly in the chop houses of the city were pushed to one side and left to forage for themselves practically.

Every year the ranks of the veterans of the Civil war get thinner and thinner; old men who used to walk proudly in the parade now have automobiles in which to ride. In a few years they will all be gone.

Now that Civic Music in New Castle has become a reality with the association numbering over 900 members, the worry that faced the guarantors has been dispelled. The money is now guaranteed and it remains but for the talent committee to choose the artists.

How the P. and O. company handles a crowd like that one that was at Cascade park Wednesday evening when they want to come home (and they all seem to come at once,) is of increasing wonderment to Pa Newc. But they get them home in record time and the system shows efficiency.

What one of the greatest American babbit batters calls the "Great American Bar," the soda fountain was overworked sadly yesterday. But the prime one, the one for the ages, was pulled in the afternoon by one of the friends of Pa Newc. Espying another friend at the fountain, he grasped him

### Winning Balloon Lands Early Today In West Virginia

Two Of Men Who Started In Race Forfeit Lives As Result Of Accidents

ONLY ONE BALLOON GOES OVER 20 MILES

One Of Balloonists Dies In Leap From Disabled Gas Bag At Irwin

(International News Service)

PITTSBURGH, May 31.—The army balloon No. 1, landed at Weems, Virginia, at 6:10 a. m., according to a telegram received at the National elimination balloon races headquarters here today. The army No. 1 was the only bag to remain aloft after storm forced the thirteen other entries down, and thus wins the race.

A telegram from Capt. W. E. Kepner, pilot of the balloon, read:

"Landed, Weems, Virginia, 6:10 a. m. May 31."

Assuming the time to be Eastern Standard the balloon was aloft thirteen hours.

**Two Are Dead**

PITTSBURGH, May 31.—Believed early today to be drifting south-eastward over Southern Pennsylvania, the army No. 1, sole entry in the National elimination balloon races to weather a storm which sent two men to their deaths and injured two others today appeared the winner in the ill-fated contest which began before a crowd of more than 130,000 persons at Bettis field, McKeesport late yesterday.

Reports that the army balloon was believed sighted over Connellsville, Pa., 75 miles south-east of here, after midnight, indicated that Capt. W. E.

Southern Chinese Armies Advance Toward Peking; Capture Key City

(International News Service)

**LONDON, May 31.—The fall of Peking appears imminent today, a dispatch to the Daily Mail from the Chinese capital stated.**

The Nationalists have captured Paoting-Fu, the key city to Peking, 85 miles to the south. The northerners are reported to be retreating in a disorderly fashion.

**Fear Looting**

Merchants in Peking, fearing that looting will be inevitable when the invasion of the city occurs are banding together and barricading their valuables. Foreigners are reported to be shifting their belongings to the comparative safety of the consulates.

### Planes Arrive To Aid Greeting

Big New Castle Plane To Arrive This Afternoon From San Diego Flight

NEW CASTLE MEN COMPLETING TRIP

Left St. Louis This Morning On Last Lap Of Cross-Continent Flight

Today at noon, three planes, owned by members of the Pittsburgh Aero Club, arrived at the New Castle Airport on the Harlansburg road, in preparation to greeting Ed Schultz and D. Roy Bradford, two members of the New Castle Aircraft, Inc., who expected to complete their trans-continental flight in a new Ryan monoplane, the "Spirit of New Castle," early this afternoon.

"The Spirit of New Castle" is expected to arrive in New Castle from St. Louis, Mo., on the last leg of the hop, early this afternoon, according to word received by Jack Crowl of the New Castle Aircraft, Inc.

This morning a wire was received from St. Louis stating that if the weather was good, the jump would be made. Since no other word has been received from the aviators, it is thought that they left St. Louis early this morning.

When the plane arrives at the Harlansburg road airport, it will be greeted by the Pittsburgh fliers, a new Monocoupe, two passenger enclosed model recently acquired by the com-

President And Wife To Spend Summer At Huge Estate Near Superior, Wis.

(International News Service)

WASHINGTON, May 31.—President Coolidge is going west again for his summer vacation.

The summer White House will be established this year on the Henry Clay Pierce estate 35 miles from Superior, Wis. it was announced today. The estate, known as "Cedar Island Lodge", is on the Brule river. Executive offices will be maintained in Superior.

President Coolidge plans to leave Washington shortly after June 11 when he addresses the business organization of the government.

Last year the president spent his vacation in the Black Hills of South Dakota.

Cedar Island Lodge is in the heart of the picturesque Wisconsin lake re-

Man Confronted With Blood-stained Clothes Breaks Down After Grilling

(International News Service)

TOLEDO, Ohio, May 31.—Charles J. Hoppe, 26, Toledo taxi driver, married and the father of a one-year-old child, is held today pending arraignment following his confession to police that he kidnaped and strangled seven-year-old Dorothy Sielagowski early Tuesday morning. He was taken for questioning at 11 o'clock Tuesday night.

According to his signed statement reported by police, he had become intoxicated with liquor obtained at the wedding of a neighbor and was unable to assign any reason for the killing. Recollections of the slaying were vague, his statement said.

Police said they attached suspicion to Hoppe because he and his wife formerly roomed at the home of Alex Sielagowski, father of Dorothy, and because his description tallied with

### Spanish Aviators Reported Missing

Captain Jimenez And Captain Iglesias Missing Since Tuesday Morning

MAY HAVE STARTED ATLANTIC FLIGHT

(International News Service)

MADRID, May 31.—Anxiety was aroused here today by the mysterious disappearance of Capt. Jimenez and Capt. Iglesias, Spanish aviators, who hopped off at Seville at 11:20 Tuesday morning in an effort to establish long distance and duration records. Nothing has been heard of them since they headed southward from Seville.

This morning they had been on their way for 48 hours unless forced down in the sea or some desolate land area.

When the airmen departed they said they would try to fly to Karachi, India, which is about 3,000 miles from Seville in a straight line. However, there had been a strong belief that the aviators might try a trans-Atlantic flight to Cuba. The government had forbidden the Cuban flight because the plane was not equipped for overseas flying.

However, belief is now growing that the airmen, disregarding the government's warning, might have attempted the trans-Atlantic venture. It is about 3,200 miles from Seville to the outskirts of Havana, in a straight line. If the airmen really tried to fly to Cuba and had been able to keep on their course, traveling meanwhile at an average speed of 100 miles an hour, they should have reached Cuba by 9 o'clock last night (Spanish time),

### Night Of Terror In Belgrade As Rioters Battle

Two Are Killed And Sixty-Nine Injured In Anti-Italian Demonstration

POLICEMEN HURT IN PITCHED FIGHT

(International News Service)

VIENNA, May 31.—Belgrade passed through a night of terror with terrific anti-Italian rioting in which at least two persons were killed and 69 others, including nine policemen, were seriously wounded, said advices from that city today. Hundreds were slightly hurt. Sixty arrests were made. Streets were barricaded and gun battles between rioters and police raged in several parts of the city.

The inner quarter of the city was like a battlefield. Many shops and cafes were demolished and the furniture carried into the streets for the erection of barricades.

The population is embittered against the government and police because of their passive attitude in the face of the note presented by Italian Minister Bodrero demanding satisfaction and damages without mentioning the anti-Jugoslav demonstrations in Italy.

Anti-Italian demonstrations have been in progress throughout Delmatia for several days. It is reported that 25 Italian shops were wrecked at Spalato. Italian shipping offices were destroyed and Italian vessels in the harbor plundered.

### Colonel Lindbergh Lands In California Survey Completed

(International News Service)

LONG BEACH, Cal., May 31.—After soaring over Los Angeles for two hours in the darkness, Col. Charles A. Lindbergh flew his Ryan monoplane to Long Beach, landing at the airport here early today.

Immediately after landing, the "flying colonel" sought a hotel, where he retired for sleep. Hampered by a heavy fog bank and darkened air fields in Southern California, he was unable to land at Los Angeles, according to the airport superintendent here.

In landing here, the Lone Eagle terminated a transcontinental flight from New York, during which he inspected the route of the newly-announced air-rail transportation system

MISS MARGUERITE BUMBAUGH

By EVERETT R. HOLLES
Staff Writer for Central Press and New Castle News.

ST. JOSEPH, Mich., May 31.—Marguerite Bumbaugh, far different from the "Deetie" whose songs were the life of so many parties, sits in her tiny cell in the jail here and pens poetry as she awaits her day in court for the slaying of the clandestine lover who cast her aside.

The bits of poetry, she hopes, will bear out her plea that she was suffering "maniacal temporary insanity" when she shot and killed Walter H. Cook, her one-time married employer, at Niles, Mich., March 30. Her trial begins June 4.

For two months she has occupied a tiny cell on the second floor of the gaunt, brick Berrien county jail. Below her in the men's quarters her brothers, George and Girard, play their guitar and mandolin for fellow prisoners. They are held as her accessories in the slaying.

### Four Men Leave On Plane Flight Over New Route

Expect To Make Two Stops In Pacific En Route To Australia

FIRST HOP TO END AT HAWAIIAN ISLANDS

Second Stop Will Be Fiji Islands; Longest Flight Attempt On Record

(International News Service)

MUNICIPAL AIRPORT, OAKLAND, Cal., May 31.—On the first lap of an attempt to link the continents of North America and Australia by air, the giant silver-winged monoplane Southern Cross, with four men aboard, hopped off today for Honolulu under perfect weather conditions. The takeoff was made at 8:49 a. m.

The giant Fokker carried its crew of four intrepid airmen and a load of 1,200 gallons of gasoline down the historic runway here and lifted its seven tons of weight from the ground to follow the Pacific air trail blazed by Lieutenants Lester Maitland and Albert Hegenberger.

The flight to Australia, if successful, will be the longest trans-oceanic flight in history.

### Three Victims Of Plane Crash

Detroit Flier And Two Passengers Are Killed When Plane Falls 1,000 Feet

(International News Service)

DETROIT, Mich., May 31.—An airplane pilot and his two passengers were added to the list of holiday victims when their plane nose dived from an altitude of 1,000 feet and crashed on a farm near here last night.

The victims, all Detroiters, were Homer Wells, Schiller avenue, the pilot; Victor and Julius Slambrouck, brothers, Beaconsfield avenue.

The Slambrouck brothers, both married, were crushed under the motor and died instantly. Wells died a few moments after he had been extricated from the wreckage.

The plane according to investigation by Macomb county sheriff's office had been engaged in taking up passengers for short flights.

The plane took off as usual on the last flight, gained a height of about 1,000 feet and then circled as if the pilot were planning to head away from the field. Just at this point the plane went into a nose dive and crashed.

*The lessons are over or nearly so, the classes are ready to close, and exams have been held that supposedly reveal what a student knows. But it takes no exam for a kid to know that the summer is nearly here, there are signs about that cannot be missed, that are always unfailing clear. When the teacher asks for the books turned in, it isn't long 'till they're through and today they collected a lot of them in, and the weather is sixty-two. The signs are out for the summer days, the school work is nearly done, another week and they'll all be out for a summer of nothing but fun.*

# Graduate Class At Union High

Program Is Presented On Tuesday Evening In School Auditorium

DR. JOHN COLEMAN MAKES ADDRESS

Commencement exercises of Union High school were held at the high school auditorium on Tuesday evening, May 29, with Dr. John Coleman of Geneva College, making the commencement address.

Prof. R. F. Conway, principal of the school, had charge of the exercises, the presentation of diplomas was made by W. C. McGrew, president of the Union township school board. Music was furnished by the Union High Orchestra.

Dr. Coleman in his address on "The Man Beyond the Horizon" urged a clean life as a preparation to meet the strains of future life. He used as an example the Olympic athlete Butler who was able to win by one-half a second because he had just that much in reserve. He said that he had no fear for the future of America as long as the youth were prepared for the future in the right way.

Following is the program which was presented:

Selection—Orchestra.
Processional.
Invocation.
Violin Solo—Francis Mrozek.
Salutatory—Agnes Schuller.
Valedictory—"Power of Purpose," Evelyn Graham.
Selection—Orchestra.
Commencement Address — "The Man Beyond the Horizon," Dr. John Coleman, Geneva College.
Presentation of Diplomas—W. C. McGrew, President, Union Township School Board.
Benediction.

Harry Lyons, navigator, and James W. Warner, radio man.

They will be guided over the Pacific from Oakland to Hawaii by the army's radio beacon at Crissy Field, which led the army fliers in their historic flight and Arthur Goebel in the Dole race.

From Honolulu the fliers will essay a flight of 3,128 miles to Suva, Fiji Islands, the longest hop over a single expanse of water ever attempted in the history of aviation.

From Suva it is planned to fly to Brisbane, thence to Sydney.

## FOUR NATIONS JOIN IN SEARCH FOR DIRIGIBLE

locked up in the snow and ice of the Arctic. Whether they were able to descend or whether they perished amidst the desolate ice floes of the Polar Sea is not known.

A report from Manila that the Vladivostock wireless station had received a fragmentary message from the Italia was denied in Moscow.

With the ice breaker Hobby en route for King's Bay with a relief crew aboard, another ship will leave Bergen tomorrow morning for the same destination bearing Hjalmar Riiser-Larsen, a Norwegian Polar explorer, who will aid in the search.

**Still Some Hope**

LONDON, May 31.—More than six days have passed since the dirigible Italia was last heard from after making its epochal flight to the North Pole, and fears for the safety of General Umberto Nobile and his crew of 17 grew stronger today.

Relief workers have not as yet given up hope, however, and three expeditions are well under way, but the Citta Di Milano, the Italia's base ship, was forced to turn back to King's Bay because it faced the danger of being broken up by the pressure of ice floes at Magdalena Bay.

The steamer Braganza, chartered by the Italian government, is believed to be nearing King's Bay with a detachment of Italian Alpine troops, who will scour the Arctic wastes using dog sleighs.

The Norwegian ice breaker Hobby is now en route to Spitzbergen from Tromsoe, Norway. Lieutenant Holm, a famous Norwegian flier, and his seaplane are aboard. The Hobby will go as far north as the ice will permit and Holm will scan the region where Nobile was last heard from by reconnoitering from the air, using the Hobby as a base.

**Deny Message Received**

MOSCOW, May 31.—A report from Manila that the radio station at Vladivostock had picked up a wireless help call from the Italia was denied today by the president of the Radio Friends Association. This association is co-ordinating and directing the efforts of the naval and amateur radio stations to locate the missing Italia and its crew of explorers.

"No soviet station has picked up any message from the Italia," said the radio official.

Terrific snowstorms are raging over the Arctic and off the Siberian coast.

Soviet officials are certain that the Italia could not remain in the air under present conditions.

## FALL OF PEKING IS IMMINENT AS ARMIES ADVANCE

(Continued From Page One)

The northerners are being hemmed in from three sides by the southern armies. More than one hundred thousand southern troops are reported to have crossed the Yellow river west of Tsinank Fu. They are now believed to be advancing towards Peking.

The Shansi army, which is allied with the southerners, is reported to be similarly advancing towards the Chinese capital by Fabaoting Fu, on the right flank of the northern defense.

Meanwhile Marshal Feng Yu-Hsiang, another Nationalist ally, is leading his army forward between Paoting Fu and Hokien Fu.

The northerners are intermittently putting up stubborn resistance and many sharp clashes have occurred. But the combined southern horde appears to be overcoming all resistance by its continued attack from three sides.

The President plans to motor almost daily between the summer White House and offices in Superior and to conduct Federal business. He did this last year between Black Hills and Rapid City.

The estate is owned by the heirs of the late Henry Clay Pierce, wealthy oil man.

President and Mrs. Coolidge will occupy the lodge, a specious rambling bungalow built of white birch. It contains eight bedrooms. Quarters are provided for servants.

The lodge is located on an island containing about an acre of ground. It is separated from the mainland by a footbridge. The estate proper consists of several thousand acres of timberland. It is said to abound in fish-laden streams and lakes.

## WINNING BALLOON LANDS EARLY TODAY IN WEST VIRGINIA

(Continued From Page One)

Kepner, pilot and Lieut. Eareckson, aide, are winners of the race, since the others were forced down after a few hours struggle against lightning, rain and fog.

Lieut. Paul Evert, pilot of army balloon No. 3, was killed when the bag was struck by lightning over Youngwood, Pa., while Walter W. Morton, aide to Ward T. Van Orman, pilot of the Goodyear sustained fatal injuries when the balloon crashed at Irwin, Pa.

Lieut. Van Orman sustained a broken leg while J. F. Cooper, aide in the City of Cleveland, was severely shocked when the bag was struck by lightning. Carl K. Wollam, pilot of the City of Cleveland, escaped unhurt.

Lieut. Van Orman's left Leg was fractured, according to word from Westmoreland hospital, Greensburg, where he was taken. Physicians also feared possible internal injuries. Race headquarters learned that he leaped from the Goodyear when the bag struck a coal tipply.

**Leaps to Death**

Morton leaped to his death at the same time. Cooper sustained shock and slight burns, and attaches at Westmoreland hospital thought he may also have sustained internal injuries.

Of the thirteen balloons which were forced out of the race, the navy No. 13 travelled the longest distance, about 20 miles from McKeesport in a direct line.

American Business club, Akron, landed at Banning, 18 miles; City of Cleveland and Army No. 3 at Youngwood, 14 miles; Detroit No. 4, Middletown, 12 miles, and the others all landed within a shorter radius.

They were Detroit News, Pitcairn; Gardner 8, Irwin; Goodyear No. 5, Irwin; Sun-Telegraph, Pittsburgh, Trafford City; Detroit No. 2, Westmoreland City; Army No. 2, Irwin; Navy No. 12, Pitcairn, and W. W. J. Detroit, Gilmore.

"Deetie" draws her two carefully folded slips of paper.

"Would you care to read some of my poetry?" she asks.

One, called "The Maniac," was written in Los Angeles a month and a half before the slaying.

The other, "The Resurrection," was penned two weeks after she shot Cook and reveals the rest that has come to her.

Her attorneys have said that the poems are conclusive evidence that she went mad and killed Cook, who was a well-known and wealthy manufacturer.

"Deetie" walked into Cook's office and while her brothers stood by shot four bullets into her former lover's body. She gave herself up to police and declared she shot in self-defense after Cook struck her across the eyes.

She came to him unarmed, she said, because he had threatened to kill her if she ever returned for the $3,397 he owed her.

Then, after a few days in jail, she told a story of ten years clandestine love with Cook, of four illegal operations performed on her and of his alleged abuse of her.

"He took the best years of my life, my money and my very soul," she sobs.

While nine of the bandits stood menacingly with firearms leveled, the tenth bandit went down the line with the canvas bag and took up the "collection". Here and there a woman fainted, but nothing was allowed to interfere with the orderly progress of the robbery.

by the arm and said "Come on let's go home now. You've had enough."

Many bells were tolled at noon on Wednesday as a special observance of Memorial Day. The bells on the fire departments of the city and some of the churches and schools were used in this ceremony. The response to the suggestion for this method of observing the day was quite hearty and was much appreciated.

New Castle got quite an unexpected thrill at noon when three planes circled over the city and landed out at the Harlansburg airport. They were part of a squad coming here to aid in welcoming the new passenger plane coming for the local airport service.

New Castle goes on daylight savings time for the summer on Sunday morning.

Auto traffic on the roads in this vicinity was not as heavy on Memorial day as had been anticipated. Either more roads are being used or there weren't as many drivers out yesterday.

## HIGH HEELS ARE FATAL TO WOMAN

UNIONTOWN, May 31.—High heels are said to be injurious to women, but here is one instance of where they were fatal.

Mrs. Claretta Wonsettler, aged 26, lost her life when her heels caught on the top step of stairs leading to a rest room in William Dora's barber shop, South Gallitan avenue, here, throwing her to a concrete floor about 12 feet below.

The great need of every American community at present is another good pitcher.

## Deaths Of The Day

**Mrs. Brest Buried.**

Funeral services for the late Mrs. Matilda Brest took place from her home in Mercer Wednesday afternoon at 3 o'clock in charge of her pastor, Rev. J. W. Black, pastor of the First M. E. church assisted by Rev. Hicks of the Free Methodist church.

The services were largely attended including many friends and relatives from New Castle. Interment was made in Findley cemetery at Mercer and the pallbearers were members of Mrs. Brest's Sunday school class.

Mrs. Brest is survived by one daughter, Mrs. Eva Bowman and one brother, Charles Brooks and five grand children, all of Mercer.

**Mrs. Margaret J. Williams.**

Mrs. Margaret Jones Williams, aged 52 years, wife of David S. Williams, passed away at the family home, 402 East Lincoln avenue, Thursday morning, May 31 at 7 o'clock after an illness of five weeks.

Mrs. Williams' death was due to heart trouble which resulted from an attack of inflamatory rheumatism from which she had been suffering since April.

She was born in this city May 26, 1876, a daughter of the late Philip Voyle Jones and Elizabeth Lewis Jones and had spent her entire life here. She was a graduate of the local high school and Clark's Business College of New Castle.

Since childhood she had been a member of the First Baptist church and for eighteen years had been the treasurer of the Woman's Missionary society. She was also a member of the Temple Bible class of the Sunday school and the Protected Home Circle.

Mrs. Williams was gifted with an unusually beautiful personality and kindly disposition. Her fine character manifested itself in her devotion to her family and church life. She was one of the best known and highly esteemed women of this city.

the data gathered of a "man dressed in black with a missing front tooth."

**Find Clothing.**

The dark suit and a shirt, spotted with tell-tale blood stains was discovered by detectives in a freshly dug hole in the rear of Hoppe's home.

Hoppe broke down when confronted with the clothing and a plaster cast of his own teeth which police said fitted exactly in the marks on the body of the victim.

After mutilating and choking the girl, the statement said according to police, Hoppe took the body and threw it upon the front porch of the home of Joseph Skibinski, uncle of the girl. The Skibinski house is across the street from the Sielagowski home.

The murdered girl was a cousin of Hoppe's wife, Sophia, 22. Mrs. Hoppe said that she suspected something was wrong when her husband returned about 4:30 o'clock in the morning, wearing bloody clothes.

### CONGRESS' ACHIEVEMENTS

THE most that can be said of the seventieth congress is that it has come up to the average. It has been neither a notable nor a notorious session. The record of the session on legislation, if largely negative, is good as far as mischievous proposals are concerned, with one or two exceptions.

When the session convened last December the major issues as congress itself saw them were tax reduction, flood control, farm relief, Boulder dam, Muscle Shoals, navy construction, election reform, return of alien property and immigration.

As regards tax reduction, congress succeeded fairly well in satisfying itself, the white house, the tax payers and business. The cut was far less than some congressmen had declared possible and desirable, and somewhat more than the maximum set by the president and Secretary Mellon.

The compromise reached on flood control is completely satisfactory to neither side but makes possible an extensive construction program containing some promise of relief for the Mississippi River valley.

Congress, for its farm relief attitude, is being rebuked by both opponents and proponents of McNary-Haugenism; by the first for passing the bill and by the latter for not passing it over the president's veto.

Immigration measures were not pressed, perhaps for political reasons. Boulder dam ran the hazards of eleventh-hour deliberation. The Muscle Shoals measure is unsatisfactory but criticism is favorable regarding the action on alien property. The seventieth congress disgusted everybody by its do-nothing-but-investigate policy toward election evils.

Like many of its predecessors, the seventieth congress has demonstrated the advantages of a congressional recess every presidential year.

### FARMING AND ECONOMICS

IT TAKES two sides to make a political issue. And by two sides is not meant a division of congressional opinion, but a division of public opinion. Farm aid certainly comes under this definition.

There are many people who have believed from the first that the farm relief movement was organized by politicians for the purpose of gaining favor at home and exploiting the American people as a nation. When President Coolidge vetoed the McNary-Haugen bill they considered it the one barrier standing between "organized rapacity" and the public treasury.

The urban population is virtually unanimous, apparently, in the belief that economic laws are invulnerable to legislation, and in the belief that the McNary-Haugen bill was designed to benefit a small minority at the expense of the consuming masses. The consumers of farm products have not protested against farmer co-operatives and other price-fixing schemes of the farmers, but they were loath to have congress aid these schemes with money collected in large part from those who would have to pay more for their food because of the price-fixing.

Taking the other side in the controversy are many who sincerely believe some such legislation as the McNary-Haugen bill is essential to the complete recovery of American agriculture from its real and imagined ills. And there are in this group no small number who are convinced that the consuming public would benefit from the use of public money to create artificial prices for farm products.

As long as the public is divided on the question it will take more than a president's veto to kill it as an issue. The growers of wheat, corn and cotton may yet kill their own issue by bringing their production below consumption, thereby using the laws of supply and demand to raise prices to a level satisfactory to the producer.

### HIDING ITS SPOTS

NOBODY will be fooled by the generally excellent personnel of the Tammany Hall delegation bound for the Houston convention. Not even the uninitiated have been deceived into thinking Tammany Hall is a Sunday School organization or has suddenly "got religion."

There is no doubt that special pains have been taken this year to produce a good impression on the public mind and upon the Democratic delegates from the "Solid South" and McAdoo's West. The Tammany delegation is hand-pecked by the master hand, and with more than usual care, and with a view to answering the prejudices and criticisms of the enemies of Tammany. The prominent and distinguished men who have permitted themselves to be enrolled under the Tammany banner are intended as an answer to the allegation that no good thing can come out of Tammany Hall, and that it is necessarily and inherently the center of political corruption and evil.

It is not a new thing for Tammany to give respectability and dignity to its delegations to national conventions by the selection of men of social and professional standing. The Baltimore convention of 1912 was an instance where impeccable delegates represented Tammany but failed to save it from a devastating hurricane of denunciation by William Jennings Bryan, who has not deceived by the spotless front.

The holier-than-thou Democrats are forgetting themselves. They are making the dangerous and very un-Democratic thing of admitting that there are some "bad Democrats." Except when the Tammany tiger runs into the national political arena the world is told that all Republicans are bad and all Democrats seraphims of sanctity and pearls of purity.

The World War was not the longest on record, but the hangover seems to be.

There is a surprise waiting for bank bandits in certain Illinois towns where silent burglar alarms have been installed. When told to "stick 'em up" the bank cashier promptly complies, but presses a secret button which sounds an alarm in fifty different places, bringing a band of armed vigilantes who meet the robbers on their exit from the looted institution. This should be some improvement on the old methods of conducting a stern chase.

From what we can gather in the way of national politics from what we read we are beginning to think the politicians have Mr. Hoover about skinned. Hoover has been too busy and has done too much for the good of the country to be elected president. Some one who had never done anything or perhaps never been heard of much will likely be nominated.

**TODAY'S STORYETTE**

The young man had been suspected of cheating at cards, and members of the club to which he belonged executed swift justice by heaving him out of the window.

The victim of their wrath pulled himself together, dusted his clothes, and re-entered the club. He sought out the secretary and complained of the treatment he had received.

"They threw me out of the second floor window and nearly killed me," he said, aggrievedly. "What ought I to do about it?"

"Well," said the secretary, "I would suggest that you join another club, where the card room is on the ground floor."

Insurance to the amount of about $4,500 has been paid to each of the families made fatherless by the horrible mine explosion at Mather, Pa., a short time ago. It is a relief to know that the poor souls left behind have something to comfort them even if it is not much, but money is the one thing they need most now. What a wonderful thing insurance can be made.

Jesse H. Jones, the big Democrat of Texas, who got the Democratic party out of debt, has been endorsed for President by the Democrat state convention in Texas. Detroit and Miami put up the bluff that they wanted the national Dem convention, and as they expected it would, Houston jumped in, raised the deficit of a quarter of a million dollars and got the convention. Jones was the chap the money was owed to, so he didn't do so badly at all. He would only be getting paid back in part if he got the nomination for President because he saved his party from financial ruin. Detroit and Miami did not want the convention. The Communist party held their national convention in New York last week. William Z. **HALF ACTUAL COST**

Undeniably, a large percentage of the reading public has small appreciation of the cost of the materials which go into the newspaper which sells for two or three cents. One of the best schemes we have noticed to bring this to the attention of the public was recently introduced by E. P. Schwartz of the circulation department of Des Moines Register and Tribune. It was an envelope stuffer which showed the costs lying behind a year's subscription, as follows: Newsprint, 312 copies, $4.49; postage and transportation, $2.14; ink, 12 12 cents; news service, $1.45; composition, 94 cents, and wrapping, mailing and other clerical expense, 83 cents. Thus the total cost of producing one mail subscription for one year was fixed at $10.02. The annual subscription is $5.

Mr. Schwartz added to this computation some comparisons with other commodities. For instance, the daily newspaper costs the yearly subscriber about 1 1-2 cents per day, and he is asked to compare the pleasure and profit he may have from that expenditure with benefits from two sticks of gum, a postage stamp, an egg, a cup of coffee or a glass of milk.

Well, nobody has any ripe tomatoes grown on the outside around here yet.

Playing golf by airplane is the latest. The game is played by the players dropping a ball from the plane as near the hole as possible, of course. The secret of the game of golf anyway if is played is to get the ball as near the hole as possible—in fact, getting it into the hole counts most of all, if we are correct in our surmise.

Death Trap Blonde.
Some Said Print It.
She Tired of Seeing Him.
Gen. Dawes' Good Vote.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

The headline writer finds new inspiration, "Death Trap Blonde," and it's in Cyrus H. K. Curtis' paper, not in a raging tabloid. The mysterious blonde, white, of course, "trapped" a Negro politician in New York.

He drove with her to an uptown address, and when he got out, a white man, stepping from behind the taxi, shot him to death. The Death Trap Blonde vanished, the police are puzzled and the victim leaves a fortune.

Even Ike White will admit that the story is new, in crime.

England is observing the three hundredth anniversary of John Bunyan's birth. On November 25 "Bunyan Sunday" will be celebrated throughout the world. Nearly three centuries have passed since the humble tinker, locked in jail and compelled to meditate, with leisure to write, gave "Pilgrim's Progress" to the world, doubting and hesitating.

Some said, "John, print it," others said, not so.

Some said, "It might do good," others said no.

Publishers thought that only servants and others ignorant could possibly want the ignorant peddler's simple book and the only edition printed, at first, was bound in paper for a penny. You couldn't buy a copy of that first edition now for a thousand pounds. Sometimes simple things outlast others, more showy.

Mrs. Charles Hawkins, British, married 40 years, asks and gets a divorce, saying "Husbands dont appreciate you, if you stick at home all the time."

Now that he has her no longer, the lady's daughter says father comes home every night and looks at mother's empty chair. Mother says the chair will "stay empty, for she is tired of "seeing his face every day." Husbands, take warning.

Married life has become uncertain, even for those that thought themselves safest.

Gen. Dawes, who probably will be the Republican nominee if anything should happen to the Hoover boom, rendered yesterday a public service that the West will not forget. He cast his deciding vote to prevent adjournment of Congress Tuesday at 5 p. m. Without Dawes' vote that adjournment, against which Senator Hiram Johnson fought desperately, would have killed the Boulder Canyon Dam bill for this year.

Call money, used for stock gambling, also for legitimate installment purchasing, cost 6½ per cent Monday, first time since 1921, and that hit stocks in the last hour. Big favorites dropped like an athlete from Barrum's roof. High finance knows that the way to discourage vice, gambling included, is to make it EXPENSIVE. And for its own reasons, high finance is determined to check speculation.

Farmers, who wonder why their McNary-Haugen bill was vetoed, might wonder, about other things. For instance, Canadian railroad commissioners, lowering freight rates on wheat, give the Canadian farmers an advantage of 3 to 10 cents a bushel over our farmers in the world's markets.

Senator Capper introduced a bill to help fix that. Secretary Hoover and Gov. Smith, one of whom probably will be President a year hence, promise cheap wheat transportation by canal.

Something should be done.

Meantime, Senator Capper prints in big type "THE RAILROAD RELIEF ACT WORKS FINE. IT HAS PUT THE ROADS ON THEIR FEET AND ALL THE FARMING THEY HAVE TO DO IS OCCASIONALLY TO RAISE THE RATES."

Henry Ford says "What's the use of talking about any limit to United States development?

"I, for one, can scarcely see more than a beginning here and there."

That's how healthy business minds feel about it.

James Speyer puts it briefly:

"Prosperity is our NORMAL CONDITION. Nothing will interfere with it but foolishness."

American gold is going to Europe rapidly. If we are too careless our large supplies will drift across the water.

London is drawing gold STEADILY, which puts up British exchange. The Bank of France has added $220,000,000 in gold to its reserve this year.

In addition, Americans traveling abroad leave a thousand millions a year in gold money behind them.

We helped our foreign friends to finance their big war and now we are helping them recover from it.

Whom would you suggest for Vice President on the Republican ticket? How would you go about selecting him?

New York's Business Men's League suggests Col. Theodore Roosevelt. His father accepted the Vice Presidency against his will, complaining, "I am being side-tracked." It turned out to be quite a conspicuous "side track."

Gov. Lowden is said to have declined the Vice Presidency when Harding was elected. Had he accepted, he would be President now.

### THE MIDDLE OF THE ROAD

After all is said and done, the main thing in life is to keep in the middle of the road.

Extremists in everything are to be avoided, and the goal before all of us ough to be that we should become well balanced people.

I have often said that life is like walking a tight rope. The main thing is to keep one's poise.

Even in morals there is such a thing as a man being [illegible] good or too bad. He does not want to be so perfect that he has no sympathy with those who err. Neither does he desire to be so bad that he has no good qualities. He wants to be good with just enough faults to make him human.

No one wants to be too tall nor too short.

There is a great deal said about over-eating. Nobody wants to die of hunger, yet a little fasting is a good thing. The point in eating is to eat not too much and not too little.

We all want to be rich, but riches can become a burden. Poverty likewise has produced some grand characters, but poverty, on the whole, is undesirable. We should pray the prayer of Agar: "Lord, give me neither poverty nor riches."

A man doesnt want to be too talkative. It is very easy to talk too much. And sometimes silence is reprehensible. One wishes to talk just enough, not too much nor too little.

We should aim to be upright, but not so upright that we lean backwards.

Patriotism is a fine thing, but patriotism run wild can become Chauvinism.

Everything should be tempered with a sense of balance.

The chief of all virtues is temperance. Nothing too much and nothing too little.

It is natural for a man in studying any subject to be led away into extremes.

Probably extremists have some good in isolated cases, but the man who is the best, in most instances, is the one who tempers all his qualities with common sense, and who keeps step as much as possible, with his fellow man.

Keep the middle of the road, therefore. Avoid extremes in everything. The best man is not the strongest, but the fittest, the one who is best adapted to his surroundings, and the one who can adjust himself to all kinds of cases.

### FIVE FAMOUS FLAGS.

There are many flags of the Nation sacredly preserved. Nearly every city, village and hamlet of the country is the proud possessor of a Flag which has an honorable history.

Five of the most treasured American flags are, however, housed in the National Museum at Washington. These are the original "Old Glory," the original "Star Spangled Banner," the Jones Flag, the Peary Flag and the Paris Flag.

To William Driver is given the credit for having christened our flag "Old Glory". The year 1824 marked the twenty-first year of young Driver's life, and also his elevation to the rank of Master Mariner in the United States Navy. In honor of the occasion his friends presented him with a flag. He gazed at the beautiful emblem a while, and then fervently exclaimed, "Old Glory!" Thus he gave to our National Emblem a name that has been cherished ever since.

The flag which inspired our National Anthem is one of the five in the museum. The Jones Flag is the one flown by John Paul Jones, the Naval hero. The Peary Flag claims the distinction of having been raised at the North Pole.

The Paris Flag is the one which was displayed on Eiffel Tower when the United States entered the World War in 1917.

Little Lawrence likewise has its famous replicas of "Old Glory."

### LABOR COST.

For years farmers complained of the high cost of labor. And farm labor is still high. But there is another side to the picture. It is estimated that last year our American farmers saved $30,000,000 in labor by substituting machines for hired hands.

More and more will farmers need machines to do their work. In a sing-

### A CAUSE FOR GRIEF

His face was long and sad and glum
His feet he dragged along.
He looked like one to whom had come
A vicious bolt of wrong.

He looked like one to whom had come
A deadly crushing blow.
He looked like one just stricken dumb
By agonizing woe.

He never saw the golden sun
Dip slowly in the west.
He walked that lovely path as one
most bitterly distressed.

Had strangers seen that solemn face
Or heard that heavy sigh,
Or watched him walk with funeral pace
They would have questioned why.

They would have thought his child lies dead
Or else his lovely wife.
This man who walks with heavy tread
Sees nothing left in life.

Yet every golfer grinned to see
His grief as home he came.
That anguished look proclaimed that he
Had poorly played a game.

I think when golfers glum I see
Come dragging home again,
How strange it is man's joy should be
A source of so much pain!

How strange it is that man should woe
The source of so much woe,
And love a sport the way they do
Which tantalizes so!

### THE BEST BOOKS.

Before me lies a book entitled "The Best Books of Our Time," by Asa Don Dickinson, librarian of the University of Pennsylvania. This book lists a thousand books that were published during the last quarter century. It lists no book except upon endorsement of four or more persons or organs that are considered authoritative. So we have here the thousand books of English-reading people that have gained approval of critics.

I suspect there are very many excellent books that are not in this list. Some of the best books I have ever read have been quite lacking in the endorsements of critics and book ballyhooers while some of the most widely touted books have been to me devoid of interest.

Here are ten favorite authors of our day according to Mr. Dickinson's tabulation of critical endorsements. John Galsworthy, H. G. Wells, Arnold Bennett, George Bernard Shaw, Edith Wharton, Joseph Conrad, Booth Tarkington, Rudyard Kipling, W. H. Hudson and Joseph Hergesheimer.

* * *

Of course Mr. Dickinson's popularity test is of a different sort from that usually used. The critics whose endorsements he accepts are nearly all intelligent critics. If the test were number of copies sold, Harold Bell Wright I imagine would outshine the ten whose names have just been mentioned and Zane Gray would come near the top of the list. Mr. Dickinson's tabulation comes much nearer giving you a fair estimate of the really good books.

I am disappointed to note that my own favorite author does not appear in the list of ten favorites nor in the list when it is enlarged to 25. Aldous Huxley who in my opinion writes the best English that is being written in our generation does not appear so far as my searching can bring out in the whole book of 405 pages about books and authors.

* * *

The dore Dreiser who in my opinion writes teh most execrable English that is to be found between cloth covers appears 28th on the list of critics favorites. Knut Hamsun who wrote "Growth of the Soil" one of the best novels ever written in any language, is credited with 26 endorsements and Dreiser with 49. So you see there is plenty of fault to be found with this listing of the best books and the best authors. But for all that it is a brave effort, conscientiously carried out.

### Numerous Machines Are Damaged In Accidents Here On Wednesday

Automobile accidents reported to the police over Memorial Day are numerous.

L. H. Thayer of 114 Sheridan avenue reported Tuesday evening that he was en route north on Highland avenue, and turning west to go on Lincoln avenue, when Oliver McConahy of East New Castle, who was riding a bicycle, ran into the rear of his machine. He was taken to the Shenango Valley hospital, where it was found that he had sustained no serious injuries and was then taken home.

Denniston Brothers, 1315 Moravia street, reported that their truck was en route north on Walnut street near Court, when it collided with the truck of G. A. Dale, Ridge street. A little son of Mr. Dale was injured.

Cars of Albert O. Reed, R. D. No. 2, and William R. Brush, state police officer, came together at Washington street and Atlantic avenue Tuesday. Some damage was done.

W. J. Bryan of 728 Court street reported Tuesday that he was going east on Court street, near the courthouse, when a car bearing Pennsylvania license A27-900 pulled out from the curb and into his machine. Some damage was done.

J. W. Thompson of Pittsburgh reported Tuesday that he was driving an Auto Express Company truck on Long avenue when it crashed into a curb light, breaking three globes.

Automobiles of Charles Scaduto, 411 Electric street, and truck of James Kulkin came together Tuesday at Washington and Allen streets. Some damage was done.

David W Kay, 237 Fairfield avenue, reported today that he was driving north on Highland avenue when his machine collided with the service car of the McCoy Motor Company. Some damage was done.

Mike Wetler of Beaver Falls reported Wednesday that he was en route south on Cunningham avenue at Arlington avenue, when the machine of Kenneth Tyrrill of Darlington avenue ran into and damaged his machine.

# Konjola Gave Her New Feelings Of Glorious Health

MRS. CLARA MAJORS
Seavy Photo.

**This Local Lady Tells How New Medicine Ended Rundown Condition of Entire System.**

This surprising new medical compound, Konjola, is entering more homes in and around New Castle every day, until one out of every three families know about this celebrated medicine and reports are constantly being received from those who have been benefited by this famous remedy.

Konjola has produced permanent relief in thousands of cases of stomach, liver, kidney and bowels disorders where the suffering had been going on for years. The action of this new herbal preparation has astounded the drug and medical trades of New Castle as well as the public in general.

Among the latest to publicly indorse Konjola is Mrs. Clara Majors, 1202 School street, this city. Mrs. Majors made the following statement to the Konjola Man who is at the Love and Megown drug store, 204 East Washington street, New Castle, where hundreds of bottles of this medicine are being sold every week and where the Konjola Man is daily explaining how this compound reacts on the inner system.

"Since taking Konjola I am free of every health trouble that I ever suffered from," said Mrs. Majors. "I am sure there is not a better medicine in the drug stores today to build up a completely rundown system.

"I have never been able to find out what made my condition so rundown. It seemed to me that the least exertion would completely tire me out. I steadily lost weight and was down to ninety pounds. All day long I would have awful backaches. Whenever I stooped over it was almost impossible for me to straighten up. I had no appetite and the food I did eat would not digest me the way it should. My kidneys troubled me a great deal and I was subject to constant night rising. Of course, I could not sleep very well and in the morning I felt almost as tired as if I had not been to bed at all. Then my liver became sluggish and torpid. This caused me to have spots before my eyes and dizzy spells. It was very hard for me to do my housework and as I continued I got worse and was very discouraged.

"In this condition I began taking Konjola and the change that came over me was a great surprise to myself and my friends. Every day I could feel myself growing stronger and I began to take more interest in the things that went on around me. It seemed that every dose had a healing effect on my system. I began to gain in weight and before the first two bottles were gone I put on eight pounds. All the headaches and backaches completely disappeared, and have never returned. My appetite has increased and I can now enjoy a meal and know that I will get the proper nourishment from it. My liver and kidneys are normal and all the miseries from these organs have vanished.

"I will always give Konjola the highest praise and I am making this indorsement for the good it will do others."

The Konjola Man is at the Love and Megown drug store, 204 East Washington street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy.

# Divorce Court Is Held Today By Two Judges

### Domestic Unhappiness Is Aired Before Judges Hildebrand And Chambers

### NO CONTEST MADE IN MANY OF CASES

### Desertion, Cruelty And Indignities Are Principal Charges In Petitions

Marital troubles were aired before Judges Hildebrand and Chambers today when a long list of divorce cases was heard. None of the applications was contested. Desertion, cruel and barbarous treatment and indignities were the principal grounds alleged.

One of the cases in which cruelty figured was that of Dorothy Brown against John Brown, which was tried before Judge Hildebrand. Mrs. Brown testified that her husband had bit her, struck her with a bed slat, beat and otherwise abused her.

Several neighbors who had seen the bruises alleged to have been made by her husband, testified in her behalf. It was also claimed that Brown was drunk a good part of the time. While under the influence of liquor he was quarrelsome. His demeanor was different when sober.

Other cases scheduled before Judge Hildebrand were as follows:

Wilda Vokovich against Nicholas Vokovich, cruel and barbarous treatment. They were married in September, 1923, and only lived together about one month.

Maria E. Pander against W. R. Pander, desertion. They were married in October, 1912, and lived together until February, 1925.

Edith W. Wallace against James Wallace, desertion. They were married in December, 1921, and lived together until November, 1923.

Isabelle J. Majors against Reed H. Majors, cruel and barbarous treatment. They were married in December, 1918, and lived together until February, 1928.

Margaret H. Varavatta against John Varavatta, cruelty. They were married in December, 1925, and lived together until January, 1927.

Hilda N. Gamble against H. C. Gamble, cruel and barbarous treatment. Married in July, 1917, and lived together until January, 1927.

Hilda M. Sarver against Clarence E. Sarver, desertion. Married in June, 1920, and lived together until May, 1924.

Russell J. Bowles against Iona M. Bowles, cruelty. Also claimed that Mrs. Bowles had taken auto rides with other men and did not take care of the baby properly. Married in August, 1925. Lived together until October, 1927.

Cases scheduled before Judge Chambers were as follows:

Erma L. Smith against David H. Smith, desertion. Mrs. Smith claimed that her husband had left her and the children after he had become involved in financial troubles. He was out of the city for a time but is now back, but has not taken care of his family, according to Mrs. Smith. She obtained employment and is taking care of herself and children.

Anna A. Ryan against Edward A. Ryan, desertion. Married in March, 1924, and lived together until May of the same year.

Harriet E. Larkin against Albert W. Larkin, desertion. Married in June, 1923, and lived together until February, 1928.

Hilda Waddington against Frank W. Waddington, cruelty. Married in October, 1923. Lived together until November, 1927.

Hazel B. Jamison against Sherman L. Jamison, desertion. Married in April, 1922, and lived together until July, 1925.

Nancy E. Audres against William L. Audres, desertion. Married in January, 1925, and lived together until February of the same year.

Elizabeth M. Boyd against Frank S. Boyd, cruel and barbarous treatment. They were married in June, 1923, and lived together until September, 1923.

Katie Caparetivtis against Efthemeas Caparetivtis, cruelty. Married in 1902 and lived together until November, 1921.

Joseph Tuscano against Mary Tuscano, cruel and barbarous treatment. Married in March, 1919, and lived together until May, 1927.

Dorothy Hill against William Hill, cruelty. Married in July, 1906, and lived together until January, 1924.

The case of Gussie M. Kerr against Robert E. Kerr was continued.

Adaline Clausen against B. F. Clausen, indignities. Married in November, 1916, separated in March, 1928.

The case of Chester W. Buquo against Ruth Buquo, in which desertion was charged, was tried before Judge Hildebrand. They were married in April 1925, and lived together until June, 1926.

# Dr. C. C. Green Is Given Appointment

Dr. C. C. Green, superintendent of schools, has been honored by Governor John S. Fisher in an appointment to a special investigating committee for the Department of Public Instruction.

With other educators of the state Dr. Green will serve on a committee that will make some investigation and report to the State Council of Education in the matter of certification of teachers in the public school. The first meeting will be held in Harrisburg in June.

## THE WAY OF THE WORLD

(Continued From Page Four)

le year recently 600,000 persons turned from the farms to find work and homes in the towns and cities.

* * *

**CURIOSITY.**

Give it a chance and curiosity will overcome prejudice and make a thing respectable. Not so many years ago the owner of the first motion picture show in a western town hired women at so much an hour to attend his shows. He wanted to make the business popular, respectable and to give it class. And now nothing is more respectable than a first class picture show—even those that are not worth seeing.

* * *

**AS TO CHURCHES.**

Somebody is always worrying about the church. And somebody is always trying to start a story about the decline of the church .Most of this talk is from people who do not know the facts. In the lat 35 or 40 years the population of the United States increased 80 per cent while in the same time church membership has increased 130 per cent. In 1850 one person in six belonged to a church. Now it is one in three.

**TIRED?**

The next time you feel like complaining that you are tired stop a moment and study your case. Are you really physically and mentally tired or are you just especially disliking work? Do you really need rest or are you indulging your pleasant tendency to be lazy?

## Facts About Optometry

By
ARTHUR B. FOSTER
OPTOMETRIST,
449 East Washington Street

The economic loss by reason of visual defects cannot be estimated, but it must be enormous. And the subject deserves more attention than has been given it.

Physical fitness and mental alertness are impossible with any appreciable error of vision. Efficiency is tremendously curtailed in those whose sight is below par. And in many cases these defects are possessed by individuals who believe their sight to be normal.

That indicates the necessity for many persons presenting themselves to the Optometrist for a consideration of their cases.

# SCIENCE CLUB AT WATER WORKS

The members of the Ben Franklin Junior High school Science Club visited the New Castle Water Works Tuesday afternoon, and the workings of the plant were explained by B. F. Johnson, the chemist. Each step of the process of purification was told to the students.

After the coagulation, sedimentation and chlorination and filtration, in many instances the water is 100 per cent pure, the students learned.

The fact that New Castle consumes on an average of 30,000,000 gallons of water shows that the city is of more than minor importance, is the verdict of the club.

# Swimming Class To Meet Friday

There will be a meeting of the beginners' swimming class at the Y. M. C. A. Friday afternoon at 4:30, announces Henry McNicholas, assistant to the physical director, who has charge of the class. Every member is urged to be present.

Those who recently swam the length of the pool and were awarded bronze medals are William Williams, George Andrews, Charles Dinsmore and Paul Genkinger.

## PETER'S ADVENTURES IN ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

### LONELY MRS. GOLDEN EAGLE ADOPTS A CHICKEN

Mr. Bobolink was a tease. Out of the corner of his eye he saw how scared Sonny-Bunny was. So he added:

"We saw a big Eagle only a day's journey away, didn't we, wifey dear?"

"Yes, Bob, we did, but don't you remember what a kind Eagle she was?" answered kind Mrs. Bobolink who really was sorry her husband had scared Sonny-Bunny and his mother so! And she made up her mind to relieve their rabbit minds as soon as she could. "Not every Eagle would have taken a chicken under her wing, I can assure you."

"Tell us about it, please do!" cried Peter and the rabbits in chorus, and this time Mrs. Bobolink took her turn as the story teller.

"The Eagle, you know, is almost as large as the Condor, but much more beautiful. And this one wore the loveliest coat of red-brown feathers—I just envied them—they gleamed like gold in the sun."

"Didn't she tell us that they called her the Golden Eagle, my dear?" interrupted her husband. Mrs. Bobolink thought for a moment.

"That's right, so she did!" she agreed, and continued: "Now, this poor Eagle I'm telling you about was very sad and lonely, for a two-legs had stolen her from her mate and brought her to live in a barnyard. Because the two-legs was afraid she would fly away he had chained her to a post. Although the chain was very long, still this Eagle was unhappy, for she mourned night and day for her own dear home high up on a cliff by the sea. This Eagle was a mother, too, wondered what had become of her tiny eaglets and whether their father was keeping the cupboard full enough to satisfy their hungry 'tummies'. And the poor Eagle could not eat.

"I KEEP IT UNDER MY WING WHEN THE SUN IS HOT," SAID MRS. GOLDEN EAGLE

"One day the two-legs brought the Eagle a live chicken, thinking that if his prisoner could kill her prey herself she might enjoy her meal. But Mrs. Eagle just looked and looked at the poor frightened thing and afterward she told us all about it.

"'And do you know,' said she, 'I couldn't bear to kill that poor little chicken! It was so weak and helpless. Some day, perhaps, one of my babies may be captured and thrown to some great creature to be devoured. I thought if I took pity on the poor chicken perhaps that unknown creature might have pity on my eagle'. So I adopted the chicken. I keep it under my wing when the sun is hot and it never goes far away from my side, and I love it as if it were my very own.'"

*Studebaker's Championship is beyond dispute*

Studebaker cars have proved *beyond question* their ability to travel great distances at sustained high speeds. No car except the Studebaker Commander ever came within 10,000 miles of The Commander's great record of 25,000 miles in less than 23,000 minutes! No fully equipped closed car ever equalled The President Straight Eight's official records. No cars of their price classes ever traveled so far so fast as did The Dictator and The Erskine Six.

When such performance can be bought at Studebaker's remarkable One-Profit prices, *why be content with less than a champion?*

*40 miles per hour even when NEW!*

Studebaker's sensational proofs of speed and endurance come from engineering genius, quality materials, precision manufacture and rigid inspections. Because of these, any Studebaker may safely be driven 40 miles an hour the day you buy it. Motor oil need be changed but once in 2500 miles. The President, Commander and Dictator require chassis lubrication only after each 2500 miles.

Today in Studebaker and in Studebaker alone, you can buy the utmost in every phase of motoring—and behind it a name that for 76 years has meant dependable transportation. Come in, and drive a champion!

## The Diary of a New Yorker

BY CLARK KINKAID

Exclusive Central Dispatch to New Castle News.

NEW YORK, May 31.—Observations of a wanderer on Fraudway, sometimes called Broadway.

Adolph Zukor, the small sized big movie man walking to work. He has a soft voice and belies popular ideas regarding what a money-master looks like a noon-hour Bible lecturer shouting "Have faith! Have faith!" while a nearby hawker sells "Dollar watches for 25 cents—the same kind you see advertised in the magazines for four and five dollars!" The horse of a mounted cop keeps auto parkers moving in side streets, wants to get up on the sidewalk and has two nice old lady passersby worried. Police mounts get to know shopkeepers and they whinny when they get to places where they sometimes get sugar or apple handouts. Harry Bruno who has the only annual pass good on air lines is Lindbergh's publicity man.

Morris Gest arguing with his companion. "Talking pictures will change everything," he may be heard saying. Dennis King stops to buy a paper. He is Broadway's biggest matinee idol now with a popularity rivaling that of the gallery gods of yesteryear. Gets as much fan mail as a movie star. Speaking of fan mail, Lou Gehrig, Babe Ruth's rivel, gets a lot of it from girls. So do other handsome players.

A woman with imitation violets on her hat sells little bunches of the real thing for a quarter. O. O. McIntyre in his new Rolls-Royce. One Broadway "drug store" no longer fills prescriptions. # Congress Plans Many Inquiries During Summer

Numerous Investigations Are Ordered By Congress For Summer Months

GET READY FOR WINTER SESSIONS

Presidential Funds And Sub Disaster Probes Most Important on Program

By WM. K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, May 31.—An all-summer series of congressional investigations was in prospect today despite the adjournment of congress.

Presidential campaign expenditures, government oil leases in the Salt Creek fields, the S-4 submarine disaster, senatorial election contests, cotton market conditions, military and naval affairs and activities of Herbert Hoover as food administrator during the war were among the subjects to be investigated this summer by congressional committees. The proposed inquiries will be used primarily to gather information for the introduction of legislation at next winter's session.

**Funds Probe Starts**

The senate presidential funds committee will be the busiest for the next few weeks. It has been divided into two sub-committees, one of which will go to Ohio, West Virginia and probably Indiana, and the other to New York. The Ohio group will consist of Senators McMaster (R) of South Dakota and Barkley (D) of Kentucky. They will leave tonight for Cincinnati. The other sub-committee, composed of Senators Steiwer (R) of Oregon and Bratton (D) of New Mexico, will investigate campaign expenditures in New York. An inquiry into the Iowa primary was under consideration, while a sub-committee may visit California in July.

The house's presidential campaign fund committee meanwhile will be sitting in reserve, waiting to launch an investigation if conditions require it, incidentally if the committee does operate, it will be the first time the house has undertaken an investigation into national politics. Heretofore, it has left such work to the senate.

The senate Teapot Dome committee already has started an inquiry into the leasing of the government's Salt Creek fields in Wyoming, said to be the richest oil deposit in the world. This inquiry will be continued throughout the summer, with the committee hoping to file a report next December.

Two senatorial election contests will be carried on during the summer. The senate elections committee will continue its inquiry into the fraud charges brought against senator-elect William S. Vare (R) of Penna., by William B. Wilson, his defeated Democratic opponent in the 1926 election. Hearings will be held in Philadelphia July 9. The Reed slush fund committee meanwhile will investigate slush fund charges raised in the recent New Jersey senatorial primary, a sub-committee probably going to that state within the next ten days.

**Submarine Investigation**

The senate inquiry into the S-4 disaster will be turned into an investigation of safety devices for submarines. Two plans for rescuing the imprisoned crews or disabled submarines will be inspected by the senate naval affairs committee during the recess. One plan involves a huge helmet which members of the crew would don and then being released from the submarine, would attempt to reach the surface.

The other involves a giant "elevator" which would be dropped from the surface, fastened to the hull of the submarine and brought up again, after members of the crew had entered it.

The senate agriculture committee will continue its probe meanwhile into cotton price conditions and especially the cause of the market deflation period of 1927. A sub-committee has planned a visit to cotton exchanges during the summer in the hope of preparing remedial legislation for submission to the next congress.

The Hoover inquiry will be conducted by the senate campaign fund committee under a resolution, introduced by Senator Blease (D) of South Carolina. Blease charged that Hoover as food administrator, purchased sugar in Cuba and Porto Rico during the war at 5½ cents a pound and held it off the home markets, at a time when the American people were paying 28 cents a pound for sugar.

Federal prison conditions will be investigated by a house committee.

Members of the naval affairs committees both of house and senate will investigate army and navy matters during the summer.

## Lincoln-Garfield School Is Winner Of Special Honor

**Wins Women's Club Award For Highest Average In Spelling And Mental Arithmetic**

The Lincoln-Garfield school this year won the award given annually by the Woman's Club to the grammar or junior high school having the highest average in spelling and mental arithmetic. The first two years this award was won by the Terrace Avenue school, the third year by the Oak street school, and this year by the Lincoln-Garfield. Does it not seem strange that it has never been won by a junior high school?

A committee of women from the Woman's Club went to the school on Tuesday afternoon. The whole school consisting of 992 pupils of 26 nationalities was assembled in the gymnasium in perfect order. The exercises were opened by pledging allegiance to the flag and the singing of America. Mrs. J. G. Nothdurft, chairman of the Department of Education in the Woman's Club, presented the award in a fitting manner. Each member of the committee spoke a few words in praise of the efforts of the school.

This award is hand illuminated and beautifully framed.

## Gives Advice To Poultry Raisers

(International News Service)

HARRISBURG, May 31.—Farmers are urged to market unprofitabel hens at once instead of keeping them until fall when there always is a surplus, in a statement issued today by J. E. Lawless, Jr., popultry specialist of the State Department of Agriculture.

Although most hens lay a few eggs at this season of the year when prices are cheap, Lawless urged carefull culling to locate "star boarders" and then immediate marketing of those found to be unprofitable.

He added that it generally is unwise to retain those culled in an attempt to fatten them. The majority of fowls are in good condition at this time he said, while attempting to fatten them only delays marketing and usually is unprofitable.

## Appeals To Police For Aid In Finding His Missing Wife

(International News Service)

BRISTOL, Pa., May 31.—William Kline 43 of this city has appealed to police in an effort to locate his wife who has been missing from her home since May 7. Kline and his wife have been married for 21 years and are the parents of five children, ranging in age from 5 to 19 years.

From the time Mrs. Kline left her home on the morning of May 7 no trace of her whereabouts has been obtained. It is believed that perhaps she had been stricken ill and was in some hospital under an assumed name.

The missing woman is described as being five feet four inches in height, weighs 125 pounds, has brunette hair, and gray eyes. When last seen she was wearing a brown hat, steel colored coat, blue dress, black slippers and peach colored stockings.

## Junior High School Pupils Make Visit To News' Plant

Two groups of students of the Benjamin Franklin junior high school both from the ninth grade, were guests of the New Castle News this morning, on a visit of inspection through the plant.

The first group was headed by W. L. Soul of the Franklin faculty and the second by Miss Arletta Drew. Both groups were taken through the various departments of the paper and initiated into the mysteries of making a daily paper.

Both group also went through the Bell Telephone plant this morning, the one going through this plant while the other was in the News.

## Big Throng At Cascade Park

Although cool weather prevailed Memorial Day a large throng spent the entire day at Cascade park. Among the crowd were visitors from western Pennsylvania and eastern Ohio points. There were no accidents.

All of the proprietors enjoyed a big day as the various concessions played to throngs from morning until midnight.

The dance crowd which enjoyed Rainbow Terrace was the biggest of the season.

A sufficient commentary on the human race is the astonishment that prompts it to name somebody "Honest John".

*Announcement*

Dr. Carl Cleeland, Optometrist, 244 East Washington street, has just returned from Pittsburgh where he attended eight lectures on binocular balance of the eyes.

The course of lectures were given by Dr. R. M. Peckham of Waterbury, Conn., who is one of the leading authorities in this advanced method of eye work.

Among the subjects treated were: The modern method of straightening cross-eyes with lenses the cause and treatment of near-sightedness; some new ideas concerning astigmatism and its correction.

For the last few years Dr. Cleeland has been fitting the nervous system as well as the eyes of his patients with glasses and is constantly keeping in touch and making a study of the new proven methods, for the benefit of those who come to him for the care of their eyes.

# Coal Industry Depression Hits U. S. Prosperity

So Declares Secretary Davis In Brief Remarks At Pittsburgh

(International News Service)

PITTSBURGH, May 31.—That depression in the coal industry today is constituting a menace to the country's prosperity, was the declaration of Secretary of Labor James J. Davis here in a few minutes' discussion of the coal situation before one of his Memorial Day addresses.

The settlement of the coal strike, he said, is not yet in prospect, but there is a hopeful sign among operators to consolidate.

"There is not much new to be said about the coal strike," the secretary stated. "The Senate has completed its investigations and is now preparing its recommendations. The operators, however, are coming to what we recommended four years ago—consolidation of the many units. With reasonable competition the coal business will be prosperous."

Secretary Davis arrived here yesterday, where he delivered several Memorial Day addresses, one of which was at the unveiling of the soldiers' and sailors' monument at Carrick. He left last night for Mooseheart, Ill. to attend the annual meeting of the Loyal Order of Moose there.

# Coast Aviators Unsuccessful In Endurance Test

(International News Service)

SANTA ANA, Cal., May 31.—Unsuccessful in their attempt to shatter the world's record for sustained flying, the crew of the giant tri-motored monoplane Albatross announced here today that they would immediately start preparations for another effort to better the mark, held by Eddie Stinson and George Haldeman.

The reat craft landed at the Orange county airport here after remaining aloft some 15 hours, on account of a faulty valve in one of the engines. The plane had been in the air since 7:00:59 a. m. yesterday, carrying R. O. D. and L. C. Sullivan, pilots, and Sol Spiegel, mechanic.

There are only 30,000 blacksmiths in the United States, but this doesn't include the number who think they are automobile mechanics.

# Bandits Rob Guests Of About $15,000

Confirmation Party Is Scene Of Hold-up By New York Bandits

(International News Service)

NEW YORK, May 31.—Forty men and women, guests at a confirmation party for a 12-year-old girl in a cafe near the Bowery, were lined up and robbed of $15,000 in jewels and cash early today by four masked bandits armed with shining new automatics.

Clara Mary Orlando, in whose honor the party was held, slipped a small diamond ring into her mouth.

The ring was precious to the girl—a confirmation present. The bandit saw the action. He demanded the ring. The girl shook her head and a heavy hand grasped her throat. As the token dropped to the floor the robber slapped the child's face and tore from her white dress a cameo and a brooch.

# HARRY K. THAW ON TRIP ABROAD

(International News Service)

NEW YORK, May 31.—Harry K. Thaw sailed aboard the Cunard Liner Aquitania for a three-weeks visit in [illegible] and Paris, accompanied by E. Morgan Pendleton, on his first visit abroad in twenty-three years. He said he hoped to attend dedication exercises on the Fourth of July at a monument commemorating the part of the Lafayette Escadrille played in the war, remarking that two of his nephews served in the war, and one of them, Blair Thaw, was killed in action.

Thaw expressed concern of the health of his mother, Mrs. Copley Thaw, who is eighty-seven years old. He said he had considered delaying his trip on account of her health, but that she had persuaded him to make the trip.

## THREE ARE KILLED IN AUTO CRASH

PITTSBURGH, Pa., May 31.—Three negroes, a man, a woman and a child were killed last night when the automobile in which they were riding crashed head-on into outbound West View street car.

From the driver's license found in the pocket of the dead man, police believe the dead are Stokes Crawford, 2516 Webster avenue, his wife and child. The bodies were taken to the morgue pending positive identification.

# "Now! I am right—"

Without plenty of rich, red blood, there can be no strong, sturdy, powerful men, or beautiful, healthy women.

"FORTUNATELY, I found myself in time. I was going down! down! down! I didn't want to eat; there was no desire for it. My muscles were getting flabby—I tired easily. Many a morning I would get up after a sleepless night feeling that I could hardly pull through the day. I was also troubled with those annoying so-called skin troubles. Then, one day a friend urged me to give S.S.S. a trial. Before finishing the first bottle, I could see I was improving. That was only a few weeks ago. Today I feel more like myself than I have in years."

*Loss of appetite is only a symptom*

It is a known fact that when one's system gets "run-down," they haven't the resistance to ward off disease. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play.

*Rich, red, blood builds and sustains*

Your physician will tell you that lowered vitality is the result of an insufficient supply of red blood cells—those vitalizing elements in the blood that nourish and sustain the body.

When you get your red blood cells back up to normal, that sluggish, let-down feeling, loss of appetite, rheumatism, boils, pimples, and skin troubles disappear. You get hungry again; sleep soundly; solid flesh takes the place of that which was once flabby. You feel strong; and your nerves become steady.

*S.S.S. proven record over 100 years*

For more than 100 years S.S.S. has been helping people regain their strength and charm. Thousands of users have testified to its benefit in unsolicited letters of gratitude.

Made only from the fresh vegetable drugs gathered at the proper season of the year, S.S.S. gives to Nature what she needs in making you yourself again.

All drug stores sell S.S.S. Get the larger size. It is more economical.

From youth to later years S.S.S. is a proven tonic—give it and take it when a tonic is indicated.

# PILOT OF ARMY BALLOON KILLED

### Ent Pilots Bag To Earth After Lightning Kills Evert

Lieutenant Paul Evert, pilot of U. S. army balloon No. 3, Langley field, Va., was killed yesterday when lightning struck the balloon, which was successfully brought to earth by Lieutenant U. G. Ent, at Jacks run, near Youngwood, Pa. Lieutenant Ent is a cousin of Harry Ent, Leslie hotel taxicab fleet, this city.

Fourteen balloons started in the annual race. Within four hours nine were forced down by the storm, one of which was the army balloon struck by lightning. The other five were missing late last night.

Radio accounts told of the accident and the local man immediately got in touch with Greensburg officials after being notified of the accident by The News as at that time it was not known exactly who had been killed or injured.

The City of Cleveland also was struck by lightning and James F. Cooper, aide to the pilot, who was burned, is in a hospital. Pilot Carl K Wollam jumped and parachuted to the ground. Cooper floated down in the basket.

# Goff Is Winner In West Virginia

### State Primary Choice For Nomination For Presidency By Republicans

(International News Service)

CHARLESTON, W. Va., May 31.—Senator Guy D. Goff, favorite son candidate, and Gov. Al Smith of New York apparently have won the Republican and Democratic preference vote in the West Virginia primary with three-fourths of the results tabulated.

Out of 1,800 of the 2,305 precincts Goff was today leading Secretary of Commerce Hoover by approximately 7,000 votes for the 19 delegates to the Republican convention at Kansas City.

Smith's lead over Senator James A. Reed of Missouri was approximately 6,500 in the same precincts for the 16 Democratic delegates.

Ex-Gov. H. D. Hatfield has scored a 2 to 1 victory over Gov. Howard M. Gore for the Republican senatorial nomination. William G. Conley has a 3 to 1 margin over Roy Waugh for the Republican gubernatorial nomination.

The Democratic gubernatorial nomination race was close, with Ex-Representative J. Alfred Taylor leading Dr. Gory Hogg.

# Injured In Crash Near Salem, Ohio

### Ira A. Landis Injured In Auto Collision Monday Evening

Ira A. Landis, of Winter avenue, is in the Salem City hospital from injuries received in an automobile collision that happened Monday evening about 9 o'clock at Boyers School Corners, near Salem, Ohio.

Mr. Landis accompanied by Larry Foster was returning from Salem when his car collided with another machine and he was painfully injured receiving several cuts and bruises so that he had to be removed to the City hospital at Salem. Mr. Foster escaped uninjured.

His injuries were thought to be very serious at first but have been pronounced less serious than was feared. It is hoped to be able to remove him to the New Castle hospital or his home soon.

In the collision both cars were completely overturned and the car of Mr. Landis practically demolished. Mrs. Landis was called to Salem on Monday night.

# Firemen Have Quiet Time On Wednesday

Memorial Day passed off quietly for the firemen of the city. They were not required to answer a single alarm of fire on that day.

On Tuesday afternoon and early evening they were required to answer two alarms. The first was from box 77 during the early afternoon. It was reported as a grass fire but the firemen were unable to find any fire on their arrival. It was marked up as a false alarm.

Box 26 came in about 5:30 Tuesday night calling the department to County Line street where a truck of the Keystone Furniture company was on fire as a result of a broken gas line. The loss is estimated at $25.

# President Urges Peace In His Memorial Day Address At Gettysburg

GETTYSBURG, Pa., May 31.—Delivering the annual Memorial Day address on the famous Gettysburg battle field, President Coolidge Wednesday afternoon called upon the whole nation today to help establish peace at home and abroad.

Such efforts, he said were the least due to those who had given their lives for the United States and for whose honor Memorial Day was set aside.

Speaking from almost the same spot whence Lincoln made his immortal Gettysburg address, President Coolidge faced thousands of residents and visitors, thousands more of whom had jammed the route from the station to the National Cemetery.

Received by the local officials and escorted to the speakers' platform, Mr. Coolidge began speaking immediately after Lincoln's address had been read.

The President left Gettysburg after delivering his address and arrived in Washington early in the evening.

**Stresses Peace Need**

Stressing America's desire for peace, Mr. Coolidge said that "the one thing we want above all else for ourselves and for other nations is a continuance of peace."

He added the American interests are now so widespread that "it is almost impossible to conceive of any conflict anywhere on earth which would not afflict us injuriously."

For this reason, he added, whether so intended or not, any nation engaging in war would thereby necessarily be engaged in a course prejudicial to us.

Mr. Coolidge reviewed efforts now being made by this country to remove the trace of war in the future. The present negotiations for a treaty to outlaw war he termed one of the most impressive peace improvements the world has ever seen.

After noticing the very favorable reception given by all countries interested to the Briand-Kellogg suggestions for an anti-war treaty, Mr. Coolidge expressed the hope that the efforts of the two foreign ministers to "find a solution of the problem of peace may find a practical realization in the early making of a multilateral treaty limiting future resort to war."

**Urges Work for Peace**

The President urged his audience to work for peace by developing law abidingness and good citizenship, arguing that by these principles peaceful peoples are bred.

He said that although the American military establishment was relatively small, this country found its chief defense in its prosperity and industry and in the patriotism of its people, qualities which in contrast to large armies and navies, bred peace sooner than war.

Mr. Coolidge complained of the tendency of Legislatures to overstep the limits of the powers granted them by the Constitution and linked this with an apparent apathy in the people tending lawlessness as influences tending to break down orderly government.

President Coolidge finally scored Americans who while abroad refused to obey constitutional local laws and created international complications and covered the United States with disrepute.

Rain through the forenoon kept down the attendance at the services to between 25,000 and 50,000. Soon after noon the downpour changed to a light drizzle which continued until about the time of the President's arrival.

Soon after the President began his address, the sun came out, but it was too late to prevent wet feet for most of the crowd who trod the damp grass around the rostrum.

On his arrival here, President Coolidge was greeted by Gov. John S. Fisher and a committee of citizens headed by Congressman Franklin Menges.

Mr. Coolidge immediately was driven to the National Cemetery, with an escort of Regular Army cavalry.

Bishop James Henry Darlington of Harrisburg delivered the invocation, opening the services. Lincoln's address then was read by Rev. Dr. A. E. Wagner, pastor of the Christ Lutheran church here.

**Bedecked With Flowers**

The little old town of Gettysburg was bedecked with flowers in honor of the occasion, and streets were thronged with citizens eager for a glimpse of the nation's chief executive.

The presidential party was preceded to the National Cemetery by a parade of school children bearing flowers and by patriotic and civic organizations.

## Pile Sufferers

**Can You Answer These Questions?**

Do you know why ointments do not give you quick and lasting relief?

Why cutting does not remove the cause?

Do you know the cause of piles is internal? That there is a stagnation of blood in the lower bowel?

Do you know that there is an internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, sold by McKee's Kut Rate Store and Eckerd's of New Castle, Inc. and all druggists with guarantee of money back if it fails?

HEM-ROID banishes piles by removing the cause—stagnation of blood in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation.

**By Request!** Since Our Wagon Sale last summer, we have had so many requests for Wagons, we were almost compelled to repeat this sale. Every week dozens of boys would come to our door and holler "Hey Mister when are you going to have another Wagon Sale!"

Few jewelers think of boys. They sell jewelry for ladies, men, girls, even babies. Not much thought is given to the boys. The average boy really doesn't care much for jewelry. He would much rather have a fine coaster. To show the boys that were unable to get a wagon at our last sale Perelman's have not forgotten them, we are going to make it so easy for their parents to buy them a wonderful coaster that no plausible excuse for not buying one could be possible. We believe that all the boys who get one of the classy coasters will be Perelman's future customers when they grow up and want to buy jewelry they will remember Perelman's where their wonderful coaster came from.

Selling coasters is a little out of our line, but it is one of the very few ways for us to show the boys we are thinking of them too.

Boys, just imagine the fun you can have with one of these coasters and the long walks it will save you. This new 1928 model coaster is built for speed, comfort and long life. Designed by expert automotive engineers. Heavy disc wheels bound together by tested steel bands (not spot welded), sturdy under pinings and adjustable handle. Though strongly built of best material they are light enough for small boys to handle and operate with ease. Roller-bearings in hub cannot drop out when hub is removed. Very easily lubricated.

The picture accompaning this announcement was sketched from both photograph and the actual product itself. Notice the big balloon tires and fine springs, frame work and box. Your boy will be proud to have one of these coasters.

Boys must be accompanied by parent or guardian.

## Arrest Five In Shooting Of Man At Vestaburg, Pa.

(International News Service)

PITTSBURGH, May 31.—Shortly after George Mayer, 32, of Vestaburg, near Brownsville, victim of a bullet wound, was brought to Mercy hospital here early today, four women and a man, all from Vestaburg, were arrested on suspicious person charges.

Mayer was shot in the right leg. Authorities said he first told them he was shot during a quarrel but later changed his story, declaring he accidentally shot himself while cleaning a revolver. Mayer's condition is not serious, hospital attaches said.

The five persons arrested are to be given a hearing in morals court here. The women are Emma Katoas, Mary Marye, Marie Krapinsky and Frances Dale. The man held is Michael Breman.

## Pupils Inspect Telephone Plant

One hundred and fifty children from the Ben Franklin Junior High school today visited the plant of the Bell Telephone company of Pennsylvania, South Mercer street, and were shown through by John R. Dunfee, city manager.

The boys and girls arrived in two groups. One inspected the plant at 9:15 this morning, and another at 2 o'clock this afternoon.

## Says Smith Cannot Win Nomination

(International News Service)

PHILADELPHIA, May 31.—Governor Al Smith of New York cannot win the Democratic presidential nomination Senator J. Thomas Heflin, of Alabama, told 8,000 members of the Ku Klux Klan at a rally at Church Lane and Baltimore Pike, Delaware county.

"Smith will need 734 votes to obtain the nomination at the Houston convention," said Heflin, "but he never will get within 100 of that number. All the Democratic party is not asleep.

"With Tammany Hall back of Al Smith, what would Smith do to the nation in four years as its president?" he asked.

Still, if a few foreign nations should quarter troops on United States soil, a few of them might be "murdered" as they are in China.

## Love Piracy Charge Is Made In Suit

**Multi-Millionaire Is Involved In Suit Filed At Los Angeles, California**

(International News Service)

LOS ANGELES, May 31.—Charges of love piracy involving the name of James Scripps Booth, Jr., multimillionaire automobile magnate of Detroit, were on record here today in the matrimonial court battle between Van Court Warren, widely-known geologist, and his wife, Mrs. E. Marjorie Warren.

The charges were voiced from the witness stand in Superior Judge Leon Yankwich's court by Warren, who is asking the law to nullify a recent divorce secured by his wife in Reno and is suing simultaneously for a divorce and the custody of their children.

According to Warren's allegations, Booth alienated his wife's affections and supplied her with wealth with which, Warren charged, she was enabled to procure the Reno divorce.

Warren also testified that he had at one time failed in an alienation of affection suit against the wealthy automobile builder and designer, filed in Detroit.

Mrs. Warren's cross-complaint to her husband's suit, in which she demanded divorce and custody of the children on grounds of cruelty was to be considered by the court today.

No wonder the professional cynics think "service" silly. They get a fat living without doing any of it.

## Counting Ballots In C. Of C. Election

The new members of the board of directors of the New Castle Chamber of Commerce will be announced Friday, following the count of the final ballots this afternoon, announces James W. Cole, secretary of the chamber.

Members of the election board will meet this afternoon in the offices of the chamber to tabulate the ballots.

The photoplay of the future must have sound and fury, says a well known writer. Sound photoplays will be something to appreciate but then, perhaps, there won't be so much fury.

## DIES DRIVING TO DECORATE GRAVES

GREENSBURG, Pa., May 31.—John F. Messner, 55, of Douglass station, near Suterville, died while he and his wife were driving to the Weaver cemetery for the purpose of decorating graves of relatives Tuesday. His widow, a daughter and two sons survive. Mr. Messner was proprietor of a garage, vice president of the board of trade, an active member of the fire department of Suterville and a member of several fraternal orders.

## PROBE SHOOTING AT OHIO MINE

(International News Service)

STEUBENVILLE, O., May 31. — Authorities today investigated a gun battle near the Dorothy Mine of the Y. & O. Coal Company at Glen Robin, near here, in which according to mine guards, more than 100 shots were fired. No injuries were reported. Company buildings received most of the bullets.

The guards declared they were taken by surprise when the shots were fired from ambush. Returning the fire, the guards put to flight the attackers, estimated at 20 in number.

# Something New for Over-Stout Women

You can wrap a 250-pound woman into this beautiful garment and bring her down to the most shapely figure. For it is an exquisitely designed and beautifully worked and finished piece of apparel. You may call it a corset or supporter and yet it is a delight to the eye and a contribution to comfort never before attained. It is

*The W. S. Rice Reducing Surgical Corset*

The front and back are so designed that those great layers of fat that bulge over the abdomen and roll in waves down the back to the waist, are all smoothed out and gently but firmly kept in place to show 50 to 75 pounds reduction.

It lifts up and supports the abdomen, snugly rounds over the hips, curves the waistline to symmetrical appearance and brings the entire figure into slenderizing proportion.

*On Free Trial*

In every neighborhood and community are women who have undergone surgical operations, leaving weak places that sometimes break apart with most unfortunate results. If you have undergone a surgical operation that has left the abdomen weak, a simple attachment of air cushions to the conformer gives perfect support and protection.

It is made by Wm. S. Rice, Inc., in the largest and most complete factory of its kind in the world, and it needs but a try-on to prove it the first and only perfect Reducing Corset ever made for stout women.

Put it on and see how charmingly it feels, how perfectly it brings you into shape, how nice and comfortable you feel, how easily you breathe, how active you become, how you can bend over without strain, walk upstairs like a girl and wear modern gowns with all the appearance and freedom of a perfect figure.

Mrs. M. J. Hudson, the personal representative of Wm. S. Rice is now here to give the ladies of New Castle every opportunity to fully test this wonderful Reducing Corset.

# Convention Is Most Successful

### Insurance Men Leave After Wonderful Convention In This City

### BANQUET EVENT CLOSES SESSIONS

After two full days of business and social duties, the insurance men of Pennsylvania who gathered here for the "Pennsylvania Days" the insurance convention of the Insurance Federation of Pennsylvania left Tuesday night and Wednesday morning and The Castleton and the Scottish Rite Cathedral are getting squared away after an exceedingly busy time.

The convention closed formally on Tuesday evening with the annual banquet and public meeting. The banquet was held in the dining room of the Cathedral with Attorney Thomas Dickey as toastmaster. During the course of the short program G. R. Dette one of the vice presidents of the federation presented Mrs. William S. Diggs and Mrs. C. H. Holland with bouquets of roses, the gift of the insurance men. C. H. Holland was also presented with a testimonial scroll by the insurance men in which his service to the federation and his courtesy to the members was extolled.

**Show Motion Pictures.**

A motion picture was shown in which the new president, William H. Kingsley president of the Penn Mutual Life Insurance company of Philadelphia was shown at his desk in Philadelphia. Unfortunately he could not be present at this convention as he has gone to Europe.

The public meeting in the auditorium was attended by many outsiders in addition to the insurance men Captain Irving O'Hay being the speaker. In his inimitable manner this soldier of fortune entertained the crowd for some 90 minutes with a recital of some of his adventures in the South American revolution.

Officials of the federation were loud in their praise of New Castle and the convention here will go down in the history of the federation as one of the very best.

I use Champion Spark Plugs because they help to make my service more dependable.

Champion is the better spark plug because it has an exclusive sillimanite insulator specially treated to withstand the much higher temperatures of the modern high-compression engine. Also a new patented solid copper gasket-seal that remains absolutely gas-tight under high compression. Special analysis electrodes which assure a fixed spark-gap under all driving conditions.

## Makes Debut In "The Poor Nut"

ANNA MARIE BLACK.

In next week's performance of "The Poor Nut," Anna Marie Black makes her debut in Senior High school dramatics. She will impersonate Julia Winters, a good-looking, forceful co-ed from Wisconsin U. Anna Marie makes a charming "Miss Wisconsin." No wonder our hero enjoyed corresponding with her.

Julia is not too modest, she does not conceal from her friends the fact that her picture has been in papers all over the country. Nor does she conceal her knowledge of Freud; she is quite willing to assist her friends psychoanalytically. She diagnoses the "poor-nut's" mental state as an inferiority complex; she offers her services to cure him and thereby hangs a tale. All in all, Miss Winters is anything but a clinging vine; she is decidedly modern; she knows what she wants—we almost said whom she wants—and she has a fairly clear idea what steps to take to get it. She makes a few mistakes—for example she prefers Freud to cacti and has more interest in the libido than in the Algae—but we must not tell you the whole story. Anyone interested in a serio-comic portrayal of the college woman of today will enjoy observing the outcome of Julia's campaign.

# Atlantic Airship Service In Future Seems Possibility

### Would Operate Giant Aircrafts Over Atlantic In 48 Hours Of Flying Time

(International News Service)

LONDON, May 31.—The prediction that the formal inauguration of a regular airship service for passengers and mails across the Atlantic will take place within 18 months was made here today by Commander Charles Burney, M. P., who recently visited the United States.

Commander Burney said he had succeeded in eliciting whole hearted approval of his scheme from the United States government, and that it had promised to render all possible assistance in connection with the project.

It is Commander Burney's intention to carry out experimental flights with the R-100, the dirigible now nearing completion here, and, if all proves satisfactory, to enter immediate orders for a fleet of similar vessels to operate in the trans-oceanic service.

He estimates it would take 48 hours to cross from England to the United States and 38 hours for the homeward voyage journey. The saving in time would be due to the winds which usually prevail over the Atlantic.

# Oil Men Will Meet At The Castleton

The members of the Lawrence County Oil Men's Club will have a meeting at The Castleton this evening at 7:30 o'clock. G. W. Sutton, president of the club, will be chairman of the meeting.

It is expected that a prominent oil man from Ohio will address the gathering.

# "Americanitis"

The speed at which we Americans live has given rise to a group of serious nervous and high blood pressure disturbances aptly described as "Americanitis". It's responsible for many break-downs and deaths at middle age.

Men who work hard, smoke hard and play hard overburden the liver whose job it is to keep the blood and system clean of poisons formed in food waste. Then follows an insidious toxic condition which saps strength and energy, increases blood pressure and hardens arteries.

The liver occasionally needs a little help and there's nothing better for this, as medical men know, than a little ox gall. Ox gall is a great natural stimulant for the liver, promoting its normal active functioning, so essential to real health. Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing 10 drops of pure ox gall. They cost less than 2c each at good druggists, and a few make a vast difference. To be sure of getting the genuine ox gall, be sure of getting Dioxol.

**Free Test** Take this ad to the druggist named below and he will give you a free sample of Dioxol tablets. Try them yourself. See the splendid, quick results. One trial of Dioxol and you will want a full package!

### MENU HINT

For a change try lamb stew Italian. With boiled potatoes, greens and a strawberry shortcake, a dinner fit for a king may be served.

Lamb Stew, Italian
Boiled New Potatoes
Dandelion or Beet Greens Radishes
Strawberry Pie or Shortcake
Coffee

**Today's Recipes.**

**Lamb Stew, Italian**—Mince a slice of bacon, a clove of garlic, a small onion and half a green pepper, add a tablespoonful of olive oil and saute together in the bottom of the stewing kettle for ten minutes. Add two pounds of breast of lamb, stir until seared, then add one cup of water. Cover closely and cook for one hour. Add a teaspoonful of salt, a couple of bunches of baby carrots and a cup of stewed tomatoes, cover again and watch carefully that it does not burn. Remove cover and stir often. When meat is done and carrots tender, serve.

**Suggestions.**
**Time For Manicure.**

After you have shampooed your hair and it is drying is a good time to manicure your fingernails. The soapy water and lemon rinse have put your hands in excellent condition for the manicure.

**Quilting Hint.**

In quilting, if a rubber finger cot is worn on the index finger of the right hand, the needle can be readily pulled through, even when filled with stitches, as the rubber grips the needle, thus saving sore fingers.

### MENU HINT

Luncheons are the favorite indoor sport these bright shiny days. Chicken a la king is a favorite "main dish".

Clear Soup or Fruit Cup
Chicken a la King or Open Sandwiches
Potato Balls, sprinkled with Parsley
Buttered Peas or Asparagus
Hot Rolls Fruit or Vegetable Salad
Radishes Olives
Individual Strawberry Shortcakes or Ice Cream with Strawberries Cakes Coffee

**Today's Recipes**

**Open Sandwiches**—Twelve large slices buttered bread, one cup shredded cabbage, one and a half cups diced pineapple, one pimento, six lettuce leaves, six slices chicken or ham, three-fourths cup mayonnaise, six radishes, six stuffed olives.

Remove crusts from bread and place two slices on each plate. On one piece of bread on each plate place a lettuce leaf and a slice of meat, a tablespoon of mayonnaise and the radishes and olives. Mix the cabbage, pineapple and pimento with the rest of the mayonnaise and pile lightly on the other slices. A slice of hard-boiled egg or tomato may be put on top of this. Garnish with watercress or parsley.

**Chicken a la King**—Three cups cubed chicken, two tablespoons butter, three tablespoons flour, one cup chicken stock, one cup cream, salt, pepper, two egg yolks, one-fourth cup minced green pepper and pimento, one cup sliced mushrooms, two tablespoons sherry flavoring. This last may be omitted if you prefer.

Melt the butter, stir in the flour and when well blended add the stock and the cream. Stir until smooth and thick. Add the mushrooms and peppers and cook slowly five minutes. Beat the egg yolks slightly with a little of the hot mixture. Stir into the sauce, add the diced chicken and sherry flavor and heat. Add more seasoning if necessary.

# College Hazing Results In Big Damage Claim

### Harry C. Glunt Enters Suit For $50,000 In Court At Pittsburgh

PITTSBURGH, May 31.—A college hazing party which ended disastrously when the blindfolded freshman victim was struck by an automobile, will be aired in common pleas court as a result of a suit for damages amounting to $50,000 which was filed yesterday by Harry C. Glunt of Freeport, against William C. Norton of South Lang avenue.

Glunt, in his statement, alleges that the participants in the hazing which ended in his injury were students attending Westminster College at New Wilmington, Pa. He alleges that Norton was a member of the group which took part in the hazing and that there are other persons connected with the affair who are not within the jurisdiction of the local court.

His assailants, Glunt avers, took him at night to a lonely spot on the New Wilmington-Volant road about one mile east of the town. After striking him and treating him roughly, he alleges, they bound him, covered his eyes and compelled him to stand in the road, not telling him that it was a public highway, and threatened him with severe punishment if he moved before counting 200.

While standing in the road, counting, the plaintiff alleges, his assailants left him, and he was struck by an automobile, breaking his thigh bone and injuring him otherwise so that he was confined to a hospital for 12 weeks. For a long time, Glunt says, he was compelled to use a crutch, as his leg has been shortened as a result of the injury. He says there is danger of further operating being required.

# Daylight Time For Convention

### County Sabbath School Convention Sessions On New Castle Time Next Week

Quite a number have asked whether the 90th convention of the Lawrence County Sabbath School association, which will be held at the Scottish Rite cathedral Thursday, June 7, will be run on eastern standard or daylight savings time.

The convention will be run on daylight savings time but the opening session will start with registration at 9:30 a. m. instead of 9 a. m. as usual. This will give those living in parts of the county that are on eastern standard time one-half hour more to get to the cathedral on time. This will work out very nicely as the people living outside of New Castle are, for the most part, in the habit of getting up reasonably early.

For the benefit of those coming from Mahoning, Ellwood, Slippery Rock, Wampum, Pulaski, Plaingrove and Wilmington districts it is announced that a noon-day meal will be served in the dining room of the cathedral and then, of course, there will be the Christian Fellowship dinner between the afternoon and evening sessions. Presidents of these districts are urged to check up on their delegations as much as possible, as the district outside of New Castle having the largest delegation will be recognized in some way. The presidents of the districts will be seated on the stage with the speakers.

There will be no registration fee in connection with the convention and all those coming and registering will be regular accredited delegates. While most county conventions have a registration fee, Lawrence county has always wished the public at large to feel free to attend and for that reason has not followed the custom of other counties. The program that has been provided compares very favorably with a state convention program as there will be inspirational addresses, splendid singing under the leadership of John W. Owens and seating facilities that could not be surpassed in any city of the state, bar none.

## BOY HIT BY AUTO BUT IS NOT HURT

Robert Genkinger of 1004 Butler avenue, reported Tuesday that he was driving east on Crawford avenue between Main and Court streets when two boys ran out from the rear of a parked automobile in front of his machine. The second of the two was hit. He was removed to the New Castle hospital where it was found that he had escaped serious injury.

# One Day Institute At Central Church

### Will Be Held Under Auspices Of Church Life Foundation Of Indianapolis

Members of Central Christian church of this city will sponsor a one-day institute of worship, conducted by the Church Life Foundation, with headquarters at Indianapolis. This institute will be held on Monday, June 4. The churches of the surrounding vicinity have been invited and a number of out-of-town ministers and laymen are expected to attend.

The Church Life Foundation is a movement among the Disciples for the spiritual enrichment and efficiency of the local church. The director, Dr. W. S. Lockhart, is a pioneer in this field and brings a message that is not only challenging and inspiring, but vital to the effective on-going of the church in the future.

Wallace Tuttle, music editor of the Christian Board of Publication at St. Louis, will assist in the institute. He has had 21 years before the public as a singer and is a well-known musician. He is a singer with superb diction and tonal qualities. Mr. Tuttle is doing a valuable piece of work in the institute by emphasizing the worship element in hymns.

## FEAR POISON WEED WILL PROVE FATAL TO WAYNESBURG BOY

(International News Service)

WAYNESBURG, Pa., May 31.—Physicians today fear for the recovery of 9-year-old Joseph Brummage, son of Mr. and Mrs. Brummage of near Waynesburg.

The youth is suffering from paralysis believed to have been caused when he chewed a poison weed, known as lady tobacco. While the lad's mind remains clear, he has lost practically all use of his arms and legs.

# Civic Music Association Has Thousand Members; Campaign Great Success

With approximately 900 members enrolled within the city limits, and the rest of the county yet to be heard from, the membership campaign of the New Castle Civic Music Association, the first of its kind in the state of Pennsylvania, closed Tuesday night at 10 o'clock. Now the membership is assured of four concerts during the coming fall and winter, say officials of the organization. Based on early reports, it is expected that when the county enrollment is totaled there will be well over 1,000 members in the new organization.

Miss Mary Clark and her team of workers secured the largest number of members during the campaign, having 153, and Mrs. D. Duff Scott and her workers finished a close second, only a few members behind Miss Mary Clark. Exceptionally fine work was shown by several individuals.

The oldest member in the Civic Music Association is Mrs. Lucy D. Vandivort, who voluntarily sent her application to LaVerne Irvine after reading Monday's two-page display advertisement in the New Castle News.

Only those who signed up will be admitted to the coming concerts, which will start in October, as no single admissions are sold. Herbert Pearrs, president of the association, became responsible for a small block of memberships as the campaign closed, to protect a few people who could not be seen during the week.

A waiting list will be prepared for those who failed to become members during the campaign, and should any vacancies be created by members moving away, the first ones on the list will be given the first chances to join the association.

With a definite budget on hand as a result of the campaign, the association at a later date will consider artists for the concerts.

William S. Wright, director of the campaigns, left New Castle Wednesday afternoon for Jamestown, N. Y., where he will meet with the officers of the Jamestown association. Friday will be spent at Bradford, Pa. Monday Mr. Wright will open an intensive campaign at Jamestown.

Herbert Pearrs wishes to thank the workers on behalf of the Civic Music Association, and also Dr. R. B. Jameson for the use of headquarters.

People who think everything will turn out all right are correct. But it is because somebody else has sense enough to bail the boat.

# Aged Miner Says Change In Him Was Wonderful

**Relates How Ten Herbs Ended Long Suffering; Feels Like New Man.**

"The wonderful change Ten Herbs has made in me is almost unbelievable," was the statement of Mr. John Gold, R. F. D. 2, Butler, Pa., according to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where

MR. JOHN GOLD

he is daily demonstrating this great natural medicine to crowds of men and women.

"For a great many years I was troubled with asthma, and finally my whole system was becoming rundown," continued Mr. Gold, who is 70 years old, and employed at the North Butler Mine. "At times, my stomach was so badly disordered that even a glass of water would cause me to vomit. I would belch a sour liquid. I always had a bad taste in my mouth, and my breath was very offensive. Many a night I could not lie down because of shortness of breath. Sometimes my stomach was so sore I could not touch it, and there was always a gnawing sensation in the pit of my stomach. I was always taking laxatives for constipation. My liver was in an awful condition—even my eyes were jaundiced. I would have pains in both sides and a heavy feeling in my groins. There were sharp pains across my back, caused by disordered kidneys. I was growing weaker and more nervous every day.

"A friend told me what a wonderful medicine Ten Herbs was, so I decided to take his advise and try your preparation. After taking several bottles, I feel entirely like a new man. I can eat almost anything I want without being in distress afterwards, and have gained 20 pounds. My liver and kidneys are working properly, and my sleep is sound. I honestly believe your medicine will soon entirely relieve me of asthma. I will be glad to tell anyone personally what Ten Herbs has done for me."

The Ten Herbs Man, is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily meeting the public and explaining the merits of this medicine.

# Minstrel Show To Be Dinner Feature

**Special Entertainment Program Is Being Arranged For Consistory Dinner**

An old time minstrel show will be one of the features of the Scottish Rite dinner at the cathedral Friday evening. It promises to eclipse anything Al G. Fields, Primrose & West or any of the other celebrated minstrel men ever attempted to stage.

It is needless to say that "Doc" Dickey, DeLace Cole and L. A. Pearsall will have a great deal to do with this part of the entertainment. Their fine Italian hands can be seen all through the show and to say it will be classy is putting it mildly indeed.

Reservations for the dinner are coming in by the score and it is believed the dinner will be the largest yet held. Quite a few have not yet sent in their reservation and the committee is anxious that if they desire to have their names on the mailing list that they fill in that part of the card requesting that they be sent notices of future events.

Following the dinner an entertainment will be dancing and cards. A special orchestra has been secured for the dancing and an excellent time will be had by all.

Members of the service division and Legion of Honor will be out in force at the dinner and aid in every way possible to see that all present have a good time. There will be a meeting of the service division this evening at 7:30 o'clock at which time important matters will be up for consideration of the members.

William H. Moffatt, general chairman of the dinner club, and M. W. Wells, chairman of the event Friday evening, are leaving no stone unturned to make the dinner event the crowning event of the season.

There are few cases of rash, eczema, itching or chafing which will not be relieved with a few applications of Resinol. The most stubborn skin affections promptly yield to its soothing, healing properties. In thousands of homes Resinol is today the first to be used on any skin irritation. *At all druggists.*

## *How To Achieve Beauty*

By MME. HELENE RUBINSTEIN
Noted Beauty Expert

**The Beauty of a Gentle Voice.**

Do you remember, when we were very young, a most fascinating fairy tale of two pretty maids who were wooed by a gallant princeling?

They were both exquisitely beautiful and he had a hard time choosing until one of them opened her mouth, and from out her pretty lips came all manners of horrible things, frogs and toads and everything ugly. And then from her sister's mouth (a step-sister I'm sure, fairy tales have a way of contrasting step-sisters) came pieces of silver and pieces of gold.

Of course our prince married the walking mint (who wouldn't?) and together they probably rebuilt the kingdom and opened schools for the cultivation of soft and gentle voices. Which, as many a man will testify, is "an excellent thing in woman"!

That fairy tale made a tremendous impression on me, for I remember my mother explaining how pretty words and gentle voices were liquid silver that poured from the lips of lovely little girls, and that quarreling and bickering and harsh, raucous voices, or mean, whining ones, were the toads that could disfigure the most beautiful mouth in the world, and turn all the fairy princes away in disgust. The Voice of Beauty speaks in gentle modulated tones, and with a clear diction. The Voice of Beauty is measured, it never runs away with itself, hurtling words at a terrific rate in the ears of the bewildered listener.

The Voice of Beauty is clear and understandable. It depends on lips, tongue, hard and soft palate for clear articulation. And it tries to avoid the slang phrases of the day, the phrases which make every girl's conversation just like every other girl's. It tries to learn certain things about the world we live in, so that behind the words there is evidenced clear-thinking, and a nodding acquaintance at least with current events.

Cultivate the Voice of Beauty. Catch yourself when somebody else raises an ill-mannered voice, and answer with the "soft words that turneth away wrath." Learn to become ashamed of the impulse to shout and shriek that rises in you when you are angered, and above everything else learn to control it. Quarreling is not only unbeautiful, it is distressingly common and bad mannered.

The man with a reserved, controlled voice, can dominate a shrieking mob. His quiet tones are ten times more effective than the riotous soap box orator, for after all we have all heard that the empty vessel makes the greatest sound!

Learn to talk, to pronounce words and to understand them, for understanding them you will grow to love them, to select the ones which express your thoughts clearly, concisely and beautifully. You will find that the world puts more faith in a quiet man than in a shouter!

Cultivate a lovely voice. It is an integral part of beauty.

Your employees may seem dumb, but they aren't so dumb they wouldn't take a rest if they were boss and felt that way.

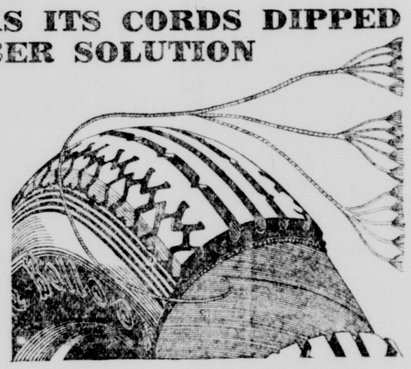
# The Tire Supreme

# Firestone Gum-Dipped TIRES

## HOLD ALL WORLD RECORDS for Speed, Safety and Endurance

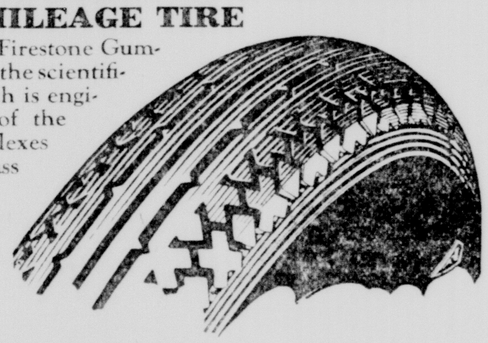
How has it been possible for Firestone Gum-Dipped Tires to sweep aside all the old records in every field of motoring and set up an entirely new standard for judging speed, safety, endurance and mileage? Such outstanding performances on all types of cars and commercial vehicles, on brick, board and dirt speedways as well as under the same everyday driving conditions that every motorist meets, could only be brought about by the most advanced tire engineering the world has ever known. Never before in history have such feats been accomplished, because never before have there been tires so perfectly designed for each motoring need—with such balanced construction from beads to tread—with every part of the tire engineered to function perfectly in the service for which it is built.

### THE ONLY TIRE THAT HAS ITS CORDS DIPPED THROUGH A RUBBER SOLUTION



Here is a single cord from a Firestone Gum-Dipped Tire untwisted to show how it is composed of small cords and strands. It takes millions of cotton fibers to make up these cords for a tire, and each must be thoroughly insulated with rubber to prevent friction and heat, in the carcass—the greatest enemy to long tire mileage. Firestone engineers found that by dipping the cords of the tire carcass in a rubber solution, every fiber of every cord is saturated and insulated with rubber, adding the greatest flexibility and strength, and unifying the whole structure of the tire. Gum-Dipping made the Full-Size Balloon Tire practical by adding the extra strength for the extra flexing strain. That is why Firestone Gum-Dipped Balloons—the original low pressure tires—have held outstanding leadership for more than five years.

### THE MOST DURABLE AND LONGEST MILEAGE TIRE



The amazing mileage of Firestone Gum-Dipped Tires results from the scientifically designed tread which is engineered to the contour of the Balloon Tire carcass—it flexes uniformly with the carcass at every point of contact—it is compounded of the toughest, most wear-resisting tread rubber possible—this tire does not weave or sway under load. It does not rut wear and because of the center ribs and provision for rubber displacement, wears more evenly and longer than any tread in the world.

### THE SAFEST TIRE

Experienced race drivers will not trust their lives or risk their chances of victory on any other tires. Firestone Gum-Dipped Tires have enabled drivers to make higher speeds, with safety, than ever before possible. Imagine the terrific strain, pressure and flexing imposed upon Gum-Dipped Tires when Ray Keech recently broke the world's record at more than 207.5 miles per hour. Yet following the race the owner of this car wrote that the tires were in perfect condition.

The tread of the Firestone Gum-Dipped Balloon Tire is scientifically designed for low pressure giving the greatest amount of non-skid when it comes in contact with the road. This is the result of its great flexibility, permitting the tire to yield freely and cling to the road. Notice the narrow rider strips and small non-skid projections which permit this tread to flex freely with the new Gum-Dipped carcass.

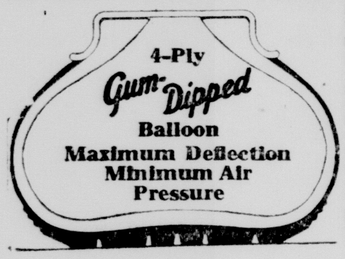
### THE MOST COMFORTABLE TIRE

The world's first practical low pressure tire—the Full-Size Gum-Dipped Balloon, was pioneered and developed by Firestone. No manufacturer has ever been able to duplicate this tire, either in the low, comfortable pressure it accommodates, or in the amazing mileage records it has established. Only Firestone has been able to give motorists true balloon tire comfort, absorbing every obstacle in the road without sacrificing long mileage.

## A Firestone Gum-Dipped Tire That is Supreme for Every Class of Service

### For Light and Medium Weight Cars

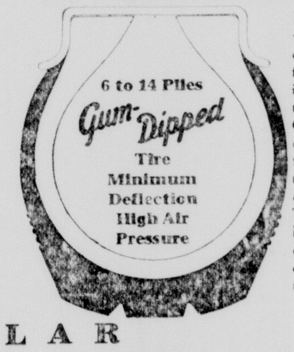
This tire is designed and engineered to the needs of the light and medium weight car. It is therefore extremely flexible, of limited ply construction, made unusually strong by the extra process of Gum-Dipping and uniformity in cure. It is generously over-size and will give you greater comfort, safety and economy than any tire in the world of heavier and more bulky construction. Do not decrease your speed, increase your gasoline consumption or wear out your tires prematurely by putting a heavier tire on your light or medium weight car.



### For the Heavy Car

Firestone has also designed a special tire with extra plies of cord fabric and heavier and tougher tread, especially for heavy cars. Naturally, this tire requires additional air pressure, and while the carcass is Gum-Dipped and flexes uniformly under load, yet its degree of deflection is less because of its heavier carcass, thicker tread and necessary higher air pressure.

### For Commercial Cars, Trucks and Buses



For motor vehicles of still greater weight and carrying capacities, the carcass is made still heavier, using from six to fourteen plies (depending on size) of cord fabric and a thick heavy tread. This tire is also Gum-Dipped by the special process and makes this tire more flexible and durable than any other tire in its class, yet it is engineered especially for commercial vehicles. This is the best tire that money can buy in its class, but if you want comfort, safety and economy of operation on passenger cars don't use this thick, heavy tire.

Decoration Day, May 30, 1928, for the 9th consecutive time, Firestone Gum-Dipped Tires won the famous Indianapolis Sweepstakes.

*207.5 Miles Per Hour—The Fastest Time Ever Made On Wheels—Made On Firestone Gum-Dipped Tires*

Ray Keech, driving the enormous and tremendously heavy 36 cylinder 2500 h.p. Triplex Special, on Firestone Gum-Dipped Tires, set a new world's record when he averaged 207.5526 miles per hour at Daytona Beach, Florida, April 22, 1928.

Frank Lockhart did not have his car equipped with Firestone Gum-Dipped Tires—and no other cars in the speed trials at Daytona Beach were Firestone equipped, except Ray Keech's car.

*Firestone Gum-Dipped Tires Have Won Every National Championship Race Since 1920*

Dave Lewis won 200 mile race at Atlantic City, in 1927, at average speed of 130.58 miles per hour without a stop—on Firestone Gum-Dipped Tires.

*One-Half and One Mile Dirt Track Records*

Frank Lockhart made an average of 80.826 miles per hour in a 100-mile race at Cleveland, in 1927, breaking all dirt track records, on Firestone Gum-Dipped Tires.

*Car Owners' Records*

H. A. Porter, New York City, writes he is amazed at Firestone mileage. He has driven his car 42,000 miles on Firestone Gum-Dipped Balloons, including trip from coast-to-coast.

G. T. Meinzer, Chicago, Ill., has driven 53,586 miles on a set of Firestone Gum-Dipped Balloons and has just equipped with a new set of these wonderful tires.

Eugene A. Boether, Lodi, Calif., calls Firestone mileage "phenomenal." A set of Gum-Dipped Balloons on his car have run 57,000 miles and he states they are good for 5,000 more.

*Coast-to-Coast Passenger Car Record*

Ab Jenkins, in 1927, drove his Studebaker Commander on Firestone Gum-Dipped Balloons, from New York to San Francisco for a record of 77 hours and 40 minutes.

*Coast-to-Coast Truck Record*

"Cannon Ball" Baker, in 1927, drove a 2-ton GMC truck, fully loaded from Atlantic to the Pacific—3,693 miles in 137 hours and 36 minutes. This fastest and longest truck run on record was made on Firestone Gum-Dipped Heavy Duty Pneumatics.

*Endurance Record*

In 1927, three Studebaker Commanders, (two roadsters and a sedan) on Firestone Gum-Dipped Balloons made 25,000 miles in less than 25,000 minutes. The roadsters finished in elapsed time of 22,968 minutes, or an average speed of 65.31 miles per hour; sedan finished in 24,200 minutes, or 61.98 miles per hour.

At Atlantic City, April 23, 1928, two Studebaker Dictator Roadsters, on Firestone Gum-Dipped Tires, finished 5,000 miles in less than 5,000 minutes. The first roadster finished in elapsed time of 4,751 minutes, or an average of 63.138 miles per hour; the second finished in elapsed time of 4,892 minutes, or an average of 61.312 miles per hour.

*Passenger Bus Record*

The Black Diamond Bus Line, Brownsville, Texas, report a set of Firestone Gum-Dipped Tires on a 20-passenger bus, ran over 83,000 miles.

Johnson Storage & Distributing Company, Fort Worth, Texas, received 63,000 miles continuous service on set of Firestone Heavy Duty Truck Tires.

*Taxicab Record*

Harbor Taxi Co., Ashtabula, Ohio, report over 61,000 miles service on a set of Firestone Gum-Dipped Tires.

William R. Rothwell, Detroit, Michigan, taxicab operator, drove 71,000 miles on a set of Firestone Gum-Dipped Balloons.

## June Exacts Heavy Toll On Swimmers

### Red Cross Warns Against Number Of Causes Or Drowning

While the average number of drownings per month in the United States is 560, it is estimated that June claims a toll each year of more than 1,500, or 50 lives a day.

Red Cross experts, who have made an intensive study of the problem over a long period, declare that most of these drownings are preventable and that a surprising number of them are directly due to carelessness and disregard for the common rules of water safety.

Paramount among the causes of June drownings is that swimmers, forgetting the fact that they are not in as good condition or practice as they were at the end of the season last fall, plunge confidently into the water and attempt to swim to some point far beyond their reach. Swimmers should remember that the distance they could swim last fall and that which they can swim at the opening of the season are entirely different things.

Another easy exit from this world into the next, it is said, is to plunge into cold water too soon after eating. At no time should a person go swimming until two hours after a meal. In the late spring and early summer when the water is colder than it will be later in the season, it is better to wait even longer than this. Even then it is much safer to enter at a shallow point and remain there for several minutes until the body becomes accustomed to it. Plunging into cold water produces a decided shock and brings about certain reactions in the body which, if a person is at all subject to cramps, may precipitate disaster.

Rules of water safety which all swimmers should observe are:

Look before diving.

Be sure the water is at least seven or eight feet deep and free from hidden stumps and rocks. Look before diving!

Don't swim alone. If you do there will be no one to help or even give alarm in an emergency.

Avoid long swims after a season of inactivity; train gradually.

When attempting distance swimming always be accompanied by a boat.

After eating wait at least two hours before swimming.

## Sliced Strawberry Jam

Every woman knows that the longer fruit is boiled the more its bright color darkens and its delicate, fresh flavor drifts away in steam.

That is why the new short-boil method of making jams and jellies with Certo delights so many women.

The following easy recipe makes the finest strawberry jam you have ever tasted. Two quarts of berries will make ten eight-ounce glasses of jam.

**Cut in halves lengthwise with stainless knife about 2 quarts of small or medium sized fully ripe berries. Large berries should be quartered. After slicing, weigh out 2 lbs. berries; or, measure, 4½ level cups, packing solidly into the cup until juice and fruit come to top of cup. Add 7 level cups (3 lbs.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Bring to a full rolling boil and boil hard for 3 minutes. Remove from fire and stir in ½ cup Certo. Skim and stir constantly for just 5 minutes after taking from fire to cool slightly, which prevents fruit floating. Then pour quickly and cover hot jam at once with hot paraffin wax. (This recipe as well as recipes for crushed and whole fruit Strawberry Jam are in the book of recipes which comes under the label of each bottle of Certo.)**

Certo is the natural substance in fruit which causes it to jell. It has been extracted from fruit, refined and bottled so that you may use it to make all your fruits jell perfectly without the old-fashioned, tedious and uncertain long "boiling down."

Get Certo from your grocer. A book of simple, tested recipes for nearly 100 delicious jams, jellies and marmalades comes under the label of each bottle.

**Recommended by cooking expert**

**Miss Alice Bradley**, Principal, Miss Farmer's School of Cookery and Cooking Editor, Woman's Home Companion, says—

"I earnestly advise all housewives to get a bottle of Certo and try out one of the recipes. One trial will convince you that the best way to make jams and jellies is 'The Certo Way.'"

## Teachers Must Have Higher Rating For Next School Year

HARRISBURG, May 31.—The school year now approaching its close, will mark a significant period in the history of education in Pennsylvania, Dr. John A. H. Keith, superintendent of public instruction, said today. It registers the time, he said, when all new teachers entering service in the public schools of the commonwealth must hold a standard certificate.

The advance Pennsylvania has made toward higher teacher qualification is best understood when compared with the year 1920, Dr. Keith asserted. At that time more than 45 per cent of the teachers in the public schools were without standard certification. Today 90 per cent of the teachers possess standard licenses and the remaining 10 per cent are rapidly acquiring the necessary credits for standard certificates.

To date, 26,000 teachers' licenses have been issued by the department of public instruction—4000 of which were granted to college graduates, 7400 to normal school graduates, and the remainder to teachers with miscellaneous preparation.

## Deer Flee Forest Fires Contrary To Popular Tradition

HARRISBURG, May 31—The statement that deer invariably run into forest fires instead of away from them has been disproved, according to a statement recently received by the Pennsylvania department of forests and waters from District Forester Paul H. Mulford of the Tioga forest district, with headquarters at Wellsboro.

During the Woodruff Hollow forest fire in Tioga county this spring, deer fled from the forest and sought refuge in an open field. They were observed to come out of the burning forest area in groups of three to five, and at one time District Forester Mulford counted 20 deer standing in the center of one field. In an adjacent field 12 deer had congregated.

## New Castle Plant Enters No-Accident Contest For June

Superintendent W. H. Kleckner of the New Castle plant of the Lehigh Portland Cement Company has signed the papers which enter the plant in the June, 1928 No-accident Campaign of the Portland Cement Association.

Enrollment cards will be distributed among the foremen and the department heads by Superintendent Kleckner on April 14. These cards will be forwarded to the Portland Cement Association's general headquarters in Chicago after the foremen have signed them, and thereby enrolled their departments in the campaign.

"This campaign will break the record set by portland cement mills last June," says Superintendent Kleckner. "During last year's campaign only one seventh of one per cent of more than 42,000 workers who pledged themselves to work safely were involved in accidents. This year we are out for a perfect record.

"In participating in this campaign we are cooperating with mills in all parts of the United States and Canada, as well as with some located in foreign countries. We are determined to prove that an entire industry can go through a whole month without one of its men being involved in a lost time accident.

"Every one in the mill is looking forward to the work with enthusiasm. Foremen tell me that they feel a personal responsibility for the welfare of their men, and that they are going to see that no one under them will be injured. The men who have been with us since last year are ready to help break a record. The new employes say they will keep up with whatever pace their older co-workers may set."

## School Plans Show Advance In State

HARRISBURG, May 31.—The 264 plans for new and reconstructed schools, submitted to the department of public instruction during the past year, show a desire on the part of school authorities for comfortable, safe, sanitary, well appointed school buildings, officials of the department of public instruction said today. There has been noted a marked improvement, it was asserted in plan and design as well as provisions for beautiful landscape features in school grounds.

Careful checking of plans and specifications resulted in a considerable saving to the school districts of the commonwealth. Basements in new school buildings have been reduced to a minimum and school accommodations formerly provided below the ground are being placed on first and second floors. Boards and architects have conferred in advance with the department of public instruction on local building programs. This has resulted in greater economy to school districts and the development of school buildings that more adequately serve the educational needs of the children, it is believed.

# Treasury Estimates Half-Billion Profit At End Of Year 1928

### Figure Government Will Cost About $3,530,000,000 This Year

### General Public Will Hand Over About $4,000,000,000 Of Yearly Income

(International News Service)

WASHINGTON, May 31.—Uncle Sam's government will cost about $3,530,000,000 this year and net a profit of around a half billion dollars, according to estimates prepared at the Treasury Department today.

Directly and indirectly the general public will hand over to the treasury more than $4,000,000,000 out of its $90,000,000,000 annual income by June 30.

Figures for the year beginning July 1 indicate that expenditures will be greater and receipts possibly $300,000,000 less than in 1927-1928. The 1928 revenue act will slash about $160,000,000 off the government's income next year, the tax reduction not being effective until January 1, while repayments from railroads of funds borrowed in the post-war period are estimated at $150,000,000 less.

The end of the current year will see another billion or more lopped off the public debt, which on June 30 will be approximately $17,500,000,000 or about $9,000,000,000 less than at the peak in August, 1919. Most of the surplus will go to debt reduction, in addition to $354,751,000 from the sinking fund and about $160,000,000 repayments on war debts from foreign governments.

## Akron Couple Hurt When Auto Skids On Youngstown Road

Mr. and Mrs. J. Howard Hay of Akron, O., were painfully injured Tuesday afternoon while enroute to Beaver when their auto in which they were riding skidded and turned over on the Youngstown road within a few miles of New Castle.

Mr. Hay sustained a number of lacerations on his right arm and face. Mrs. Hay suffered some minor lacerations.

Mr. and Mrs. Hay were removed to the Shenango Valley hospital. After their injuries were treated they were discharged.

## Youngstown Boy Is Located Here

Robert Hood, aged 11, Youngstown, O., boy missing for the past ten days and sought by radio, police and all other possible agencies, was picked up here Wednesday morning by Officer M. J. Young, as he was attempting to snatch some sleep, wrapped in a burlap sack, and lying in a doorway next door to the office of Alderman O. H. P. Green. When taken to the police station, the boy claimed his name was Robert Carey and that his home was in Butler. Inquiry there developed the fact that the youth had not been telling the truth. He was questioned further and finally stated his name was Hood and that his home was in Youngstown. The Youngstown police were notified and notified the parents. The father came Wednesday afternoon and took the boy home. He was apparently cured of his tendency to travel.

## Dedication Service In West Side Park Tuesday Afternoon

### Woman's Club Dedicate Trees At Impressive Outdoor Service

In memory of Mrs. David Dickey, and to honor Mrs. Samuel E. McCleary, Willard avenue, the civic committee of the Woman's club of New Castle of which Mrs. Irving Brown is chairman, planted two treets in West Side Park or "McCleary Square" as it is now known, Tuesday afternoon.

About 40 attended the service which was most impressive.

Invocation by Rev. W. E. McClure, was followed by short talks by Miss Margaret Walker of the W. C. T. U., Miss Rebecca Brown of the Woman's club, and a representative of the First Presbyterian Missionary society.

Mrs. Irving Brown, presented the trees, Thomas W. Dickey accepted the tree in honor of his mother, and Mrs. Samuel E. McCleary accepted her tree. She was accompanied by her son Thomas and grandson Thomas, Jr., of Braddock, who were here for the occasion.

The service was concluded, with the singing of "Blessed Be the Tie That Binds," by the girls glee club of the senior high school, and benediction by Rev. W. E. McClure.

(International News Service)

BEAVER FALLS, Pa., May 31.—Charged with larceny and carrying concealed weapons Albert T. Hall 42, College Hill justice of the peace was being held for court today under $1,500 bond by Justice George T. Smith.

Charges against Hall were made by Mrs. Matilda Loube, 63 of Beaver Falls who accused the justice of the peace of coming to her home, brandishing a revolver and a constable's badge and taking $61 from her.

Hall was arrested by Patrolman Bert Goucher and taken to the police station where he entered a plea of not guilty.

## Resume Probe Of Pittsburgh Vice

(International News Service)

PITTSBURGH, May 31.—After a five day recess, the Federal grand jury resumed its probe today into Pittsburgh's alleged politically controlled rum ring with more than 100 witnesses to be called into the jury rooms.

Prohibition officials and members of the United States attorney's staff predicted that the hearing would be completed about June 8. Approximately 400 witnesses in all comprise the last group to appear before the jury.

During the five-day recess, government attorneys examined the testimony taken from more than 700 witnesses since the investigation started May 8.

## Congressman Swick Is Memorial Day Speaker

Dr. Swick Relates Early Experiences; Was Born In This Vicinity

Patriotic Organizations And Boy And Girl Scouts Make Fine Showing Wednesday

ELLWOOD CITY, May 31.—The speaker of the day for the annual Memorial Day program of local patriotic organizations Wednesday, was Dr. J. Howard Swick, member of congress from this district. He was introduced by C. A. Martin, chairman of the day, and gave his talk from a little platform in the American Legion park, which last week held the community chest, before it was triumphantly moved, full of money for the cause, so to speak.

Dr. Swick expressed himself as being pleased to be in Ellwood City, as he had two relatives living here, and had already enjoyed a short visit with them. He stated that no doubt people recalled the battles which are prominent in history such as the Civil war, the war of 1812, battle of Gettysburg, etc., but an obscure but important battle of the Civil war which is well worth relating was the battle of Fort Stevens. That battle was fought on July 12, 1864, when General Lee detoured through the valley near the capitol, to make an assault on the heart of the struggling group of states. Lee sent General Earley up the Shenandoah valley to destroy the capitol. Early, with 30,000 men, came up as was directed, and was attacked by General Wallace with 6,000 men and held back until reinforcements arrived. General Wright came on the scene, guarded Fort Stevens, the entrance to the city, and thus saved the nation in the turning point in the Civil war. Lincoln was really under fire about this time. He and Mrs. Lincoln insisted upon visiting Fort Stevens, which was a little make-shift of dirt ramparts, and every time the tall president stood up he was well out of the fort, so after much pressure was used, he and Mrs. Lincoln retired to the White House.

The story of the battle was simply told by Congressman Swick and greatly enjoyed by the large audience surrounding the legion park.

In closing his remarks, Congressman Swick told of the rapid passing of the veterans of the Civil and Spanish-American wars, and how we would have to levy our tribute on the veterans of the World war. He appealed to the young people of today to observe the laws of the government and told of the constitution of the United States, which was drawn up 150 years ago, and has never had to be changed, merely 18 amendments added. He claimed that it is the most remarkable piece of literature since the Sermon on the Mount.

The Memorial Day parade formed on Crescent avenue at 9:30 Wednesday morning, and was under the auspices of Ladies of the G. A. R., Sons of Union Veterans, members of G. A. R., members of the Sons of Veterans auxiliary, members of the American Legion, members of the American Legion auxiliary and members of the Fraternal Patriotic American lodge.

In the absence of a resident veteran of the Civil war, J. N. Kirker of Zelienople was the parade marshal of the day. The formation of the parade was as follows: Grand Marshal Kirker, Dr. Swick, veterans' widows, gold star mothers, members of borough council and school board, Rev. W. E. Minteer, high school band, colors en massed, the firing squad, Spanish-American war veterans, Legion members, auxiliary and fife and drum corps, Girl and Boy Scouts, Ladies of the G. A. R., Sons of Veterans auxiliary and school children.

There was a fine turn-out, and the American Legion fife and drum corps deserved special mention because of the appearance of the men in their gleaming white uniforms and overseas caps. They took an active part in the program and contributed much toward the day's success. The manager, W. W. Thompson, wishes publicly to thank the men for responding in such a large number.

At the conclusion of the march thru the principal streets, pausing for an impressive ceremony at the Fifth street bridge, when the Ladies of the G. A. R. threw fragrant flowers into the flowing stream as a tribute to sailors and marines, the parade resumed march and came to a halt at the Legion park. There Mrs. Farrell, president of the Legion auxiliary, presented the American Legion with a large flag, the gift of the auxiliary. The speech of acceptance was made by Ralph Conner, commander of the local post.

A touching prayer was offered at the opening of the ceremonies by Rev. W. E. Minteer of the United Presbyterian church, and selections were given by the high school band. A clever echo effect was obtained in "taps" when another bugler was stationed a block away, concluding taps a little after the bugler in the park. The entire service was impressive and dignified, causing Memorial Day to linger long in local hearts. Later the ladies visited and decorated the veterans' graves in the cemeteries in this district.

## J. A. P. Club Honors Newly Weds Tuesday

ELLWOOD CITY, May 31.—Members of the J. A. ## Pretty Dinner And Dance Marks Holiday Here

Afternoon Of Golf And Bridge Schedule Of Activities At Country Club Here

One Hundred And Ten Enjoy Informal Dinner-Dance At Club Wednesday Evening

ELLWOOD CITY, May 31.—One hundred and ten members of the Ellwood City Country club and guests enjoyed a dinner-dance at the club Wednesday evening. The tables were grouped near the wall in the spacious lounge, and a clever orchestra furnished music from 7 o'clock until 1.

The tables were decorated with carnations, and many groups included guests from out of town, among them being Mr. and Mrs. William Hayes of Evansville, Ind., guests of Dr. and Mrs. Carl Hayes of this city and Mr. Schultz of California. At intervals two clever entertainers from Pittsburgh, Miss Adelaide Undeer and Bert Layton, gave clever numbers, specializing in soft shoe dancing in solos and together. Miss Hunter did a pretty toe-dance number which brought much applause.

During the evening several more guests arrived, making about 75 couple. A dancing program was enjoyed. Two tables of bridge were in play during the evening and score honors were won by Mrs. J. E. Powell and W. W. Seidel. The members of the general entertainment committee were in charge of last night's party, which was one of the most successful ever presented at the club.

## Miss Hazen Weds Nickolas Schneider

Pretty Wedding At St. Agatha's Tuesday Morning Unites Couple In Marriage

ELLWOOD CITY, May 31. — St. Agatha's Roman Catholic church was the scene of a pretty wedding Tuesday morning at 8 o'clock when Miss Florence Hazen, daughter of Mr. and Mrs. Willis Hazen, became the bride of Nickolas Schneider, son of Mrs. Eva Schneider of Castle Shannon, Pa. Rev. Father R. D. A. Wilkey officiated. The bride made a pretty picture in a white kasha ensemble. Her corsage was of bridal roses and valley lilies.

The bride was attended by her sister Miss Janet Hazen, who was charmingly attired in peach georgette and carried pink rose buds. Charles Schneider, brother of the groom was best man.

The bride is a graduate of the Ellwood City High school class of 1922, and the Providence Hospital school for Nurses, class of 1925, and boasts many friends in this city. The groom is engaged in business in Beaver Falls, Pa. At the conclusion of the ceremony, immediate friends of the bridal party enjoyed a wedding colation at the home of the bride. Later Mr. and Mrs. Schneider left on a short post-nuptial tour and will be at home to their friends after June 6 at their home on Ellwood-Beaver Falls road.

At the wedding breakfast covers were laid for Mrs. Eva Schneider and son Charles of Pittsburgh; Mr. and Mrs. Herman Schneider of Castle Shannon; Miss Helen Schneider of Castle Shannon; Mr. and Mrs. John Schneider, Beaver Falls; Mrs. Herbert Klugh, Steubenville, Ohio; Mr. and Mrs. Mat Riley, Mr. and Mrs. Trisk and daughter Rose Marie, Mr. and Mrs. Callahan and Mr. and Mrs. Bauman of Beaver Falls, and Joe McStay, Rev. ## Ellwood City To Get Post Office

$100,000 Appropriation For Erection And Site Of Government Post Office Here

Congressman Swick Instrumental In Getting Bill Passed In Congress For Building

ELLWOOD CITY, May 31.—Congressman J. Howard Swick introduced a bill in congress for the appropriation of $100,000 for the purchase of a site and the erection of a public building at Ellwood City, and was passed by that organization, according to a recent issue of The Republican.

A recent investigation has shown that the receipts of the Ellwood City post office have increased from $21,000 annually to more than $41,000 during the past ten years, also that the rental of post office quarters has more than quadrupled in the same period of time.

It is expected that the above appropriation for the post office will be taken from the large postal appropriation bill recently passed by congress.

## PAY FITTING TRIBUTE TO U. S. WAR HEROES AT SERVICES IN CITY

(Continued From Page One)

Sons of Union Veterans, veterans of the Spanish American war, and the veterans of the World war, both uniformed and in civilian attire and the associated groups of women, presented a really attractive and compact unit as it proceeded from point to point in the course of the exercises, headed by the Senior High school band.

The parade to and ceremonies at Greenwood cemetery, were carried out with a precision in accord with military tactics and there was never a time during the entire proceedings, that the interest and attention of those participating was not maintained.

Veterans of the Civil war and many members of the ladies' affiliated organizations were transported to and from the cemetery in cars and busses provided through the efforts of Fred L. Rentz and others.

**Thirteen Civil War Vets**

The dwindling ranks of the veterans of the Civil war were never more clearly emphasized than on Wednesday morning, when there were but thirteen of the many hundreds that formerly participated, able to be at the services.

They were accorded special honors wherever they appeared or participated in the events of the day.

Promptly at 9:30 a. m., the parade moved from the American Legion home headed by the police escort consisting of Motorcycle Officers Criswell and Augostine and in charge of Pat J. Dempsey, marshal and his aides Frank S. Nessle and John Kennedy.

The short trip from the Legion home to the Capitol theatre was made in shortened steps, in order that the thirteen survivors of the Civil war, might make the trip on foot.

On their arrival at the Capitol theatre, the aged veterans of the Civil war, walked slowly but proudly through the double formation of Company B, 125th Engineers Bn. and Sons of Union Veterans Reserve, into the theatre.

The Capitol theatre was well filled with persons interested when the services there started. Frank S. Nessle, veteran of the Spanish American war, was master of ceremonies and conducted the services in a pleasing manner.

**On Stage at Theatre**

Seated on the stage were the pupils of the Benjamin Franklin Junior High school, who took part in the program, D. M. Clark, commander of Post No. 100 G. A. R., Emmett Kurtz, commander of Colonel Leasure camp, United Spanish American War Veterans, Captain William Walter, commander of Company B, A. E. Russell, commander of Perry S. Gaston Post No. 343, American legion, George Thompson, commander of Harry L. McBride Post No. 522, Veterans of Foreign wars, Pat J. Dempsey, district commander of the American Legion, R. M. Campbell, past division commander of the Sons of Union Veterans, Rev. Vincent V. Stancelewski, pastor of Sts. Philip and James church and Attorney John S. Powers, speaker of the day.

The Mahoning school orchestra in charge of Miss Gladys Thomas was seated in the orchestra pit. The orchestra as well as the pupils of the Benjamin Franklin Junior high school who participated in the ceremonies did exceptionally fine work, which was appreciated by those in attendance.

The program of the day started with a selection by the Mahoning school orchestra. This was followed by the Star Spangled Banner by the Benjamin Franklin group of pupils in charge of Miss Esther Gibbons. They followed with the flag salute.

Rev. Fr. Vincent V. Stancelewski then led in prayer in which he asked the blessing of God on those participating and those whose memory was being honored.

The pupils of the Benjamin Franklin Junior high school then rendered the son "Give Peace O God" and this was followed by Lincoln's Gettysburg address by a girl from the group.

The reading of the general orders, which originated Memorial Day, was dispensed with. The Ben Franklin students then rendered the song, "Tenting Tonight".

**Attorney Powers Speaks**

Oration of Attorney John S. Powers followed and it was the concensus of opinion, that it was one of the most brilliant, well rounded out and instructive patriotic addresses ever presented at such a gathering here.

Dispensing with the usual flowery discourse of such occasions, Attorney Powers delved deep into the facts surrounding the occasion being commemorated, what it has meant to the country in the past, what it means at this moment and what it will mean in the future.

Among other things he said was that tyranny is possible under any form of government but with the power in the hands of the people in such a government as ours, that it is possible for the people to overthrow such tyranny at any time and perpetuate this government of the people. That with its ideals and evident purpose and the memory and guiding influence of those whose previous existence is commemorated on Memorial Day, that this country should go on forward to an even greater and more glorious future.

The address was followed by benediction by Rev. Fr. Stancelewski, after which the various organizations and people left the theatre while the Mahoning orchestra played a final number.

The various organizations then reformed on East street and Water street, with the Civil war veterans and ladies in automobiles and busses and the march to Greenwood cemetery was under way.

Parade formation was as follows: Police Escort; Pat. J. Dempsey, chief marshal and John Kennedy and F. S. Nessle, aides; massed colors of participating organizations; Senior High school band; Company B, 125th Engineers Bn. Mtd.; Spanish American War Veterans; American Legion; Veterans of Foreign Wars; Ladies of the G. A. R.; Woman's Relief Corps; Sons of Union Veterans auxiliary; Daughters of Veterans; Spanish American War Veterans auxiliary; Service Star Legion; American Legion auxiliary; Veterans of Foreign Wars auxiliary; Armed Escort Sons of Union Veterans; members of G. A. R. in automobiles.

Services at the soldiers plot in Greenwood cemetery were in charge of the Spanish-American war veterans and in accordance with the ritual of that organization.

Attorney Walter S. Reynolds, Emmett Kurtz, commander of Colonel Daniel Leasure Camp and M. J. Howard conducted the service, which opened with the playing of America by the Senior High school band. At the conclusion of the ceremony, boy scouts laid bouquets on each of the graves of the soldiers plot, after which a firing squad of Sons of Union Veterans in charge of Sergeant Charles Schetrom fired three volleys. The sounding of taps in perfect echo effect by George Partington, bugler of the Sons of Union Veterans, and Master Frederick Wagner, and the playing of the Star Spangled Banner by the high school band brought the services to a close.

The parade reformed with the exception of the G. A. R. veterans and ladies, who were in automobiles and on the arrival of the parade formation at the corner of North Jefferson and Washington streets, it passed in review before the members of the G. A. R.

Aint it a shame you can't look into th' mind o' th' auto driver you're meetin' an' tell whether he's got a lick o' sense!

## The Disputed Presidential Election—1876

THE PRESIDENTIAL ELECTION OF 1876 WAS SO CLOSE THAT BOTH THE DEMOCRATS AND THE REPUBLICANS CLAIMED THE VICTORY FOR THEIR RESPECTIVE NOMINEES, TILDEN AND HAYES, AND EACH PARTY CHARGED THE OTHER WITH FRAUD.

THE ELECTION HINGED ON THE VOTE OF THREE SOUTHERN STATES (FLORIDA, LOUISIANA AND SOUTH CAROLINA) THAT WERE STILL IN REPUBLICAN HANDS. THESE STATES HAD REPORTED DOUBLE RETURNS, THE WORK OF THE OPPOSING FACTIONS. THERE WAS ALSO A DISPUTE OVER THE VOTE IN OREGON.

THE UNDISPUTED ELECTORAL VOTE STOOD 184 FOR TILDEN AND 165 FOR HAYES. TWENTY OTHER VOTES WERE CLAIMED BY BOTH SIDES. IF BUT ONE OF THE TWENTY WERE COUNTED FOR TILDEN, HE WOULD WIN; IF HAYES GOT ALL, HE WOULD BE ELECTED. CONGRESS COULD NOT AGREE WHICH RETURNS TO ACCEPT. MEANWHILE THE PUBLIC WAS GROWING IMPATIENT, AND THERE WERE THREATS OF CIVIL WAR.

CONGRESS SUBMITTED THE MATTER TO AN EXTRA-LEGAL ELECTORAL COMMISSION, COMPOSED OF FIVE SENATORS, FIVE REPRESENTATIVES AND FIVE SUPREME COURT JUSTICES. A MONTH PASSED. FINALLY, ON MARCH 2, 1877, JUST TWO DAYS BEFORE INAUGURATION DAY, THE COMMISSION ANNOUNCED THAT HAYES HAD WON BY A VOTE OF 8 TO 7.

TOMORROW—THE BEGINNING OF HAYES'S ADMINISTRATION.

## "Cents" Capture Morning Game

Beaver Falls Wins Second Game When Carnegie Hits Home Run

DRIVES JONES HOME FROM FIRST BASE

New Castle broke even with Beaver Falls in a doubleheader played yesterday. New Castle took the first game 5 to 3 at Centennial field and Beaver Falls won the second game at Beaver Falls 2 to 0, when Carnegie's home run with Jones on first put the game on ice. Morley hurled against Whitemore and held Beaver Falls to three hits, two of which came in the ninth, while Whitemore was hit seven times.

The Centennials took the first game which was played here by scoring thrice in the fifth and twice in the sixth and although Beaver Falls scored their first in the second and third runs in the eighth they could not stage the belated rally they desired.

Hart outpitched Pearson as he allowed only eight hits and struck out four. Pearson was touched up nine times and struck out one.

The three runs in the fifth resulted from a single by Shannon who was thrown out when Yoxcheimer was safe on a fielder's choice. Hart sacrificed him around and Hogan singled scoring Yoxcheimer.

Leonard singled and sent Hogan to third, Red landing on second. Grimes got to Pearson and his hit scored Hogan and Leonard. Grimes was out trying to stretch the blow into a double.

**Pearson Hits McCullough**

In the sixth Pearson hit McCullough who advanced on a wild pitch and was scored by Gibson's single. Gibson stole second and took third when Shannon was thrown out, second to first.

Yoxcheimer drove at Jones who made an error and Gibson romped across with the run. Beaver Falls went to bat in the seventh and tried to stage a rally which was cut short, although one run came in.

Kestner singled, Hart walked Jones and Goldberg was an easy out. McGinley reached first on a fielder's choice but Kestner was out. Carnegie, however got a hit that sent Jones home with the first run.

New Castle was held scoreless in the last of the seventh and Mills, first up in the eighth for Beaver Falls reached first on Grimes' error. Semler got a safe blow advancing Mills.

Weimer sent a fly to Hogan in center and was an easy out but Kestner singled scoring Mills and the next run and third for Beaver Falls was scored when Jones singled, scoring Semler.

Weimer sent a fly to Hogan in center and was an easy out but Kestner singled scoring Mills and the next run and third for Beaver Falls was scored when Jones singled, scoring Semler.

The next two batters, Goldberg and McGinley were easy outs and the scoring for the first game was ended, New Castle winning five to three.

## Three Games In Twilight League

Three good games are billed tonight in the National section of the Twilight league. The games will start at 6 o'clock.

The Italian A. C. will meet the Colored Stars at the Radiator grounds with Diana and Zidow as the umpires. The Hillsville team will play Troop B at Coaltown with Callahan and Hudson as the officials. The Ryantown team will meet Edenburg at Edenburg with Price and Nolte as the umpires.

## Junior League

The C. C. Sluggers defeated the Vagabonds 21 to 3 in a Junior Recreation League game played at Glasser field on Monday morning. The pitching and hitting of Krupa featured the game.

The C. C. Sluggers on Monday afternoon defeated the Athletics by the forfeit route, when the Athletics failed to show up for the game scheduled at Glasser field.

## *Real Boy Wonder Is Junior Coen; At 16 He's On Davis Cup Squad*

By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News

Four years ago chance brought Big Bill Tilden, the tennis wonder of America, to Kansas City, Mo. There he heard about a small boy who was a wizard with the racquet, and Big Bill made special effort to see the lad in play.

The little kid's ability amazed Tilden and he kept him in mind. Two years later he took the boy under his wing and began schooling him in the arts of playing tennis.

That boy was Junior Coen—Wilbur F. Coen Jr.—the kid wonder of the courts.

Under the tutelage of the great Tilden, Junior Coen blossomed out into older in years and experience than this capable Kansas City lad.

a boys' national champion and today, at the age of 16, he is a member of the United States Davis cup squad.

Coen is by far the youngest player ever to be entrusted with a post on a Davis cup squad since the cherished international trophy was placed in competition in 1900.

Although young Coen needs a year or so of practice and growing until he measures up to the general standard of an international cup player, he is easily the brightest net prospect in America.

Coen's only weakness is a lack of a dependable service. The rest of his play and his generalship is all that could be asked of a star player much older in years and experience than this capable Kansas City lad.

Last December young Coen celebrated his 16th birthday. At that time he was already a player of national fame. At 16 a fine player and a Davis cup prospect! Sixteen—an age when most boys are only hopeful of possibly winning high school honors.

Until Coen burst upon the scene the "boy wonder championship" of tennis belonged to Vincent Richards. Vinny played for the United States against Australia in the doubles in 1922. He was only 19 years old then.

Rene Lacoste was just 19 years old when he represented France against the United States in 1923.

But Coen—on the Davis cup squad at 16—it just beats them all!

## Geneva Winner In Track Meet

Beaver Falls Institution Takes Championship In Contest Wednesday.

## Rickard Puts Up Another $100,000 For Tunney Bout

(International News Service)

NEW YORK, May 31.—Promoter Tex Rickard is scheduled to place a second check for $100,000 in escrow for Gene Tunney today.

Under the terms of his contract with the heavyweight champion Rickart obligated himself to post $100,000 last winter and a like sum on June 1. He is also supposed to name the date of the Tunney-Heeney battle but by mutual agreement this official announcement will be postponed while Tex's lawyers attempt to have the fight exempted from the 25 per cent federal tax on the ground that contracts and terms were made before the tax was even contemplated.

## NEW CASTLE TO PLAY SATURDAY

Canton Coming To New Castle To Meet First Place Team

Having broken even with Beaver Falls yesterday in a double header the Centennials retain first place in the O and P. circuit and will clash with Canton here Saturday.

So far the Canton aggregation has not won from the New Castle team yet. The game will start at 3:15 p. m.

## Loughran-Latzo Will Battle On Friday Night

Rain Postpones Bout Scheduled For Memorial Day At Brooklyn, N. Y.

(International News Service)

NEW YORK, May 31.—Tommy Loughran, light-heavyweight champion, and Pete Latzo, former welterweight king, resumed training today to keep themselves on razor edge for their 15-round bout at Ebbets field, Brooklyn, tomorrow night. Rain forced a postponement of the bout yesterday.

When Loughran and Latzo weighed in yesterday the champion came in at exactly 175 pounds. He says he will have no trouble holding the weight. Latzo weighed only 169½ pounds. They will weigh in again tomorrow.

The weather forecast is for fair and warmer tomorrow.

Loughran has another date at Ebbets field with Leo Lomski on June 13 and is supposed to take on Jimmy Slattery in the near future.

An effort will be made tomorrow to effect a compromise on the champion's future dates. The boxing commission will then hear both sides of the story and probably will request Loughran to meet both Slattery and Lomski but on dates far enough apart to afford the necessary promotion and time for training.

**DESIRES GAMES**

The Bessemer A. C. would like to arrange games with all first class teams in the city of New Castle and Lawrence county. For games with the Bessemer tea call 8058 and ask for Beals. The Bessemer A. C. is a strong independent team.

The power lawn mower may be an improvement, but "put-put-put" added to "clack-clack-clack" will play bob with morning naps.

## LOU MEYER WINS 500 MILE RACE

Los Angeles Driver Pilots Car 500 Miles Without Relief

INDIANAPOLIS, Ind., May 31.—Lou Meyer, 23 of Los Angeles, yesterday won the 500-mile automobile race over the Indianapolis motor speedway, defeating the crack drivers of the nation.

He piloted his car the entire distance without relief finishing 2½ miles ahead of Lou Moore's car which was driven at the finish by Lou Schneider, relief pilot. Meyer averaged 99.482 miles an hour and went the distance in 5:01:33.75.

## Kirker Pitches Brilliant Game, Italians Win

Kirker Limits Hillsville To Four Hits In Eleven Innings; Score 6 To 2

Walter Kirker was in rare form yesterday afternoon at the Hillsville field and held the heavy hitting Hillsville team of the National Section of the Twilight League to four hits in eleven innings. The Italian A. C. team won the decision 6 to 2.

The game was played as a part of a Memorial Day celebration at Hillsville and as an exhibition game in the league, and it filled the bill very nicely. The contest was a thriller from start to finish with the tally deadlocked at 2-2 at the end of the ninth. In the first half of the eleventh the Italians drove in four runs to capture the game.

L. Ross accounted for the winning runs in the eleventh by his single after Cialella and Bill Augustine had reached base on singles, and before the inning was over the Italians had scored four runs. Gwin and Augustine were on the mound for the Hillsville team, Augustine relieved Gwin in the sixth.

The Italian A. C. team emerged from their batting slump and gathered thirteen hits with Bill Augustine the heavy slugger with three safe blows.

The summary:

| Italian A. C. | R. | H | P. | A. | E. |
|---|---|---|---|---|---|

## Four Games In Church League

Four fast games are on tap tonight in the New Castle church league. The games will start at 6 o'clock.

The Mahoning M. E. team will meet the Croton M. E. team at Mahoningtown. The Central Christians will play the Central Presbyterians at Lehigh field. The First Christians will play the Hakoah team at Scotland Lane field. The First M. E. team will tangle with the Grace & Conn at Colonial field.

## Twilight League Moguls To Meet

Tonight at 7:30 at the Sporting Goods store the managers of the American section of the Twilight league will hold an important meeting. The National league managers will meet at 8 o'clock. It is imperative that all managers attend the sessions tonight.

There are several vastly important issues to be thrashed out tonight.

## St. Louis Takes Double-Header

Cardinals Pound Out 18 Hits In First Game Of Twin Bill

HAID WINS SECOND GAME FOR ST. LOUIS

PITTSBURGH, May 31.—The Pirates lost a double-header yesterday to St. Louis dropping the first game 10 to 1 and the second battle 4 to 3. Three home runs were pounded out during the day, Frisch, Harper and Smith getting the four ply swats.

The St. Louis batters got to the Pittsburgh hurlers for 18 hits in the first game, Miljus being credited with the defeat and in the afternoon tilt Had Haid (who is a New Castle boy) outpitched Kremer. He allowed only eight hits while Kremer and Dawson were landed upon 11 times.

# Cincinnati Is Double Winner

## Reds Down Cubs Twice To Retain Lead In National League On Memorial Day

## ROGERS HORNSBY HITS TWO HOMERS

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, May 31.—The much-quoted law of averages absorbed a terrific kick in the pants when not a single one of the eight doubleheaders scheduled for the big league teams on Memorial Day resulted in an even break. The Reds, Cardinals, Braves, Athletics, Browns and Tigers each won two games, while the New York Giants and Washington Senators made hay while the sun shone for one game only.

Seventy thousand fans mourned as the Cubs lost twice to Cincinnati, 6 to 0 and 2 to 1, and dropped to fourth place. Rixey and Kolp outpitched Root and Malone.

The Cardinals nicked the Pirates twice, 4 to 3, and 10 to 1, stretching Pittsburgh's losing streak to six games. The Cards haven't been trimmed by the Bucs all season.

The Giants jumped to second place, 2½ games behind Cincinnati, by slaughtering Brooklyn again, 9 to 1. Faulkner was there like a duck in the pinches. Rain halted the second game in the seventh with the score tied at 2-2.

**Hornsby Hits Two Homers**

Rogers Hornsby smacked two home runs as the Boston Braves scorched the Phillies to the tunes of 11 to 5 and 5 to 3. George Sisler got three hits and stole two bases. The Phils' percentage is now down to .189 and is rapidly approaching infinity.

Sixty-five thousand fans, the largest New York crowd of the season, received a severe shock when the Yankees were whitewashed by Lefty Braxton of Washington, once a Yank. He held the wrecking crew of the champs to three hits. In the nightcap the Yanks scored seven runs which were erased by rain in the second inning.

The recent winning streak of the Red Sox was rewarded when 36,000 fans, the biggest Fenway Park crowd in years, turned out to watch the Bostonese perform. They were sadly disillusioned when the Carrigan Clan was beaten twice by the veterans of the Athletics' pitching staff, Ehmke and Quinn. The scores were 8 to 1 and 9 to 2.

The A's now trail the Yankees by only seven games, if that means anything.

Dan Howley's Browns took both twins of a twin bill from the White Sox, 3 to 1 and 5 to 2. Two St. Louis rookies, Ogden and Crowder, had the edge on Faber and Thomas. The Browns have won four straight.

Detroit regained sixth place by taking two close ones from Cleveland, 4 to 3 and 6 to 5. Fat Fothergill's sacrifice fly in the twelfth inning of the second game scored Gehringer, who had tripled.

# Former New Castle Pitcher Does Well In Pirate Contest

New Castle baseball fans who journeyed to Pittsburgh on Wednesday to witness the Pirate-Cardinal doubleheader were pleasantly surprised in the afternoon game when a former New Castle pitcher, Harold "Had" Haid, went to the mound for the St. Louis team in the seventh inning.

Haid relieved Johnson and did not give the Pirates a hit in the final three frames. Two runs had been scored and nobody was out in the seventh when Manager McKechnie called upon Haid to go to the mound. Haid did not allow a hit in his stay on the mound and topped it off by fanning Earl Smith. Smith had hit a home run off Johnson previously, scoring Bartell.

Haid is the son of Mr. and Mrs. A. G. Haid, former well-known residents of New Castle. Haid last year was with Syracuse in the International League, and formerly with St. Joseph in the Western League. Haid resided on Emerson avenue for a great many years.

# Phillies Grab Giant Castoff

(International News Service)

NEW YORK, May 31.—The New York Giants have released Outfielder Art Jahn to the Phillies via the waiver route. He is a good batter but has been used by the Giants only as a pinch hitter.

Jahn is said to possess the largest hands in baseball. He dropped only one fly while playing with the Giants and Cubs and in the coast league.

## Four Men For Two Job — By Feg Murray

Copyright, 1928, by Metropolitan Newspaper Service

Good first-basemen are hard to get. Terrys, Bottomleys, Grimms, Hausers, Blues, and Gehrigs don't grow on trees. Yet two major league clubs, one in each league, are "first-basemen poor" (to coin a new phrase, borrowing from a familiar bridge expression). The Washington Senators are blessed—or cursed, some might say—with Joe Judge and George Sisler. In the National League, the Cincinnati Reds are lucky enough to have both Wally Pipp and George Kelly.

Five years ago next fall Kelly and Pipp were rivals in the third straight all-New York City world series. Now this is their second season as teammates. The Reds, in their position at the top of their league, show, in contrast to the Senators, who are at the bottom of the younger circuit, that their first base problem has not been so difficult, or else that Manager Hendricks has handled it better than Manager Harris. Kelly has played first whenever Pipp has been laid up with the flu, and Pipp, it seems, has always recovered enough to go back on the job whenever "Long George" succumbed to "la grippe." Wally batted .304 in his first twenty games, Kelly .213 in seventeen, Judge .278 in twenty-eight, and Sisler .176 in twelve.

On May 23rd all four first-basemen saw action. Sisler was used in right field by Bucky Harris, and was put out in the third inning for batting out of order, while both Kelly and Pipp played first for the Reds, George materially helping to defeat the Pirates with three timely bingles.

It wasn't so long ago that fans used to argue the merits of the two Georges and debate which was the greatest first-baseman. Recently seven American League Clubs waived their rights mighty fallen!

How funny it would be if Sabin Carr, following the example of Ty Cobb, who always goes to the plate swinging three bats, should warm up for a record-breaking vault by running up and down carrying three poles.

# Wampum, Garlands And Clifton Flats Are League Winners

## Three Good Twilight Games Played Tuesday Tighten Up Race In American Section

The American section of the Lawrence County Twilight league was tightened up considerably by games played on Tuesday evening. The Wampum team retains the league lead with four victories and no defeats, while Clifton Flats and West Pittsburgh are tied for second place.

The Wampum team with Boone hurling an airtight game downed the Mahonings at the Pennsy grounds by a score of 6 to 1. Boone was touched for ten hits but kept them scattered. Nord and Hutnick were on the mound for the Mahonings and were found for nine hits. The game was loosely played with a total of six errors.

Clifton Flats with Byak on the knoll defeated the Lawrence Indies 4 to 0. Byak allowed but three hits and fanned ten men. The Indies hit McIntyre hard in the third and fifth frames.

The West Pittsburgh Garlands defeated the South Hills team at South Hills 4 to 1. Mundo on the rubber for the Wampum team permitted but one hit and had eight strikeouts. The West Pittsburgh team had four hits off Mehalic but made them count. Bunched hits in the fifth inning gave the Garlands three runs. Beatrice featured the game with a home run. Fundoots had a double.

# Golfers Look Forward To Armour's Visit

Golfers of this district are waiting with great expectancy for the coming visit of Tommy Armour, noted golf professional, who will give a demonstration of his ability on the New Castle Field club links on June 14. Armour is national open champion of this country, also national open champion of Canada. He will be pitted against Captain V. Arthur Smith, field club professional, on the occasion of his visit here. He will give half an hour lecture on the fine points of the game while at the field club course. There will be a charge of $1.25 for those interested in being present.

# Cardinals Divide With Croton A. C.

The Cardinals divided a twin-bill with the Croton A. C. on Memorial Day. The morning game went to Croton 2 to 1, and the afternoon contest went to the Cardinals 4 to 2. The afternoon game was played at the South Hills grounds.

Fleeger on the moun for the Cardinals in the afternoon game allowed but two hits and fanned eight men.

## TRACKWALKER IS KILLED BY TRAIN

MARTINS FERRY, O., May 31.—Charles V. Amos, 42, was killed by a train while walking beside a Pennsylvania railroad track here at a point where it parallels with the street. Amos failed to hear the whistle or shouts of warning by other pedestrians.

Blood Is Life

Is your blood bad, have you pains in your bones and joints, swelling of the Glands, Boils, Pimples, Eczema, Old Sores that won't heal, rashes or breaking out of the skin? If so, see me at once. When your health has been undermined by worry or overwork, when your vitality is lowered, when you have that "don't care a rap" feeling, when your nerves are depressed, when your work appears too much for you, you are then in a run-down condition.

You may be an "old man" when actually young in years simply through neglect.

"The Blindfold test convinced me OLD GOLD did not even have a runner-up," says MILTON SILLS

MILTON SILLS, popular First National star, whose recent releases are "Burning Daylight", "Valley of the Giants" and "The Hawk's Nest".

"It's like deciding a beauty contest in the dark", I said when they told me about the Blindfold cigarette test. But the experiment convinced me. The beauty of a cigarette is all inside, and I didn't have to see the label to know that OLD GOLD didn't even have a runner-up. I picked it out readily from the other brands as the smoothest and best cigarette. Now it's always OLD GOLD with me.

Milton Sills

MR. SILLS made the blindfold test just after some strenuous work in the First National Studio at Hollywood. He smoked the four leading brands and promptly chose OLD GOLD.

Made from the *heart-leaves* of the *tobacco plant*

*Heart-Leaves . . . are the heart of the matter!*

HEART-LEAVES are the answer to OLD GOLD'S superiority, the reason for their *honey-like smoothness*, and for the fact that there is "not a cough in a carload." Only the golden-ripe *heart-leaves* of the tobacco plant are used in this better cigarette. The heavy, coarse top leaves that irritate the throat, the withered ground leaves that coarsen the taste are never used. That is why you can pick OLD GOLDS even in the dark.

SMOOTHER AND *BETTER*—NOT A COUGH IN A CARLOAD

# Sportistory

Thursday, May 31

——Monastery Garden, a three year-old, at Epsom, England, ran five furlongs in 55 seconds, 1927. A record.

——Llewellyn Edwards whipped Owen Moran at London, England, for the world's featherweight title, 1915. He got the decision in 10 rounds on a foul.

——Jack Everhart and Andy Bowen fought 85 rounds (five hours and 30 minutes) at New Orleans, La., for a purse of $2,000, 1893. Bowen won.

——Pitcher Callahan of Marshall college pitched a no-hit, no-run game against Morris Harvey college, 1916.

——Jem Mace and Joe Coburn fought three hours to a draw in a battle for the world's heavyweight title at Port Dover, Conn., 1871.

——Bayard Sharpe, well-known big league first baseman, died at the age of 36 at Haddock, Ga., 1916.

——Babe Ruth hit his 12th homer of the 1920 season, his 15th of 1921, his 13th of 1924 and his 15th and 16th of the 1927 season.

——Harris of Pittsburgh Nationals made five hits in five times up including a double and two triple 1927.

When air lines are established thirsty Americans won't kick if they can't take a drop until they go across.

# N. Y. STOCKS

(International News Service)

NEW YORK, May 31.—A strong market for the motor stocks, the mercantile shares and the specialities was Wall street's first reaction today to the official announcement of the Dodge-Chrysler merger, issued at the close of Tuesday's market, and the repeated rumors of pending combinations of other motor car makers. The best gains were made in Packard, Briggs Manufacturing, Studebaker and Jordan. Chrysler was under profit-taking, and Dodge preference, after opening nearly 4 points higher, at 86, also gave way to profit taking.

Radio's new rise to 216, a 10-point jump in active trading, was the feature of the specialties, though the airplane stocks sold up about 5 points and Sears Roebuck led a brilliant advance in the mercantile shares.

Heavy trading in the well known rails and steels continued, with Pressed Steel inclined slightly higher.

Call money returned to 6 per cent, against Tuesday's close at 5½ per cent.

Investment buying of the better grade of dividend industrial and rails was in good volume in the second hour. The market absorbed a huge volume of profit taking in Chrysler and Dodge, the former losing 3 points and Dodge common dripping back to 17¼, down 4½ from Tuesday's high.

### THE IDEAL CADDY

A Lancashire golfer, who has been resident in Ceylon for a short time, forwards the following translation from Tamil of instructions for the local caddies:

Put back grass when master cutting.

Count master's strokes as he is playing.

Wash master's ball if dirty.

No speaking. Not to move when master playing stroke.

Watch master if angry.

If master angry, keep far.

If master uses swear words, put wool in ears.

Always know master good, kind, Christian gentleman, with plenty money.—Punch, London.

# Former New York Deputy Secretary Will Face Trial

District Attorney To Push Case Against Herman Doctor, Hanging Fire Four Years

## KNAPP CASE IS SIMILAR ONE

(International News Service)

ALBANY, N. Y., May 31.—An aftermath of the conviction of former secretary of state Florence E. S. Knapp for theft of census money, came today in an announcement by District Attorney Charles J. Herrick of Albany that he would shortly move for trial a four-year-old larceny indictment against Herman Doctor, former deputy secretary of state.

Doctor, formerly a Democratic leader in New York, was indicted by the Albany grand jury in 1924 for the alleged theft of funds from the corporation bureau in the secretary of state's office. He never has been brought to trial.

"I intend to move the trial of Doctor as soon as the other criminal business has been disposed of at this term of court," District Attorney Herrick announced today.

**Ousted From Office.**

Shortly before Doctor was indicted he was ousted from office by James A. Hamilton, then secretary of state.

The indictment returned against Doctor charges him with misappropriating more than $1,000 of state funds. As soon as the indictment was returned, counsel for Doctor sought a change of venue but this was denied. Other level complications arose.

It was reported today that after Mrs. Knapp was convicted, friends began to question District Attorney Herrick as to why Doctor never was brought to trial.

# GIRL SCOUTS

# PULASKI NEWS

### MEMORIAL DAY SERVICES

A splendid address was given by Senator George T. Weingartner on Decoration Day in the cemetery. Special music was furnished by Mrs. Lloyd Mitchelltree, Mrs. J. F. Myers, Mrs. Charles Clark, Ernest Robinson, Charles Wick, Dr. J. N. Strain and Rev. C. C. Baker. The meeting was in charge of the president of the organization, James Riblet. At the close of the services a brief address was given by Dr. Strain, which was very interesting. E. L. Ayers was the only Civil War veteran able to be present. J. B. Crawford, the other only Civil War soldier living, was unable to attend on account of poor health.

### REV. McKEE PAYS VISIT

Rev. and Mrs. William McKee and daughter, Miss Helen McKee, who are located now at Chester, W. Va., were dinner guests at Hotel Pulaski on Decoration Day. Rev. McKee will be remembered by the older residents, as he spent his boyhood days here, being the son of the late Mr. and Mrs. David McKee, who were former residents of our community a great many years ago.

### ATTENDS ROTARY DINNER

E. L. Ayers was a guest of honor of the Rotary Club at a banquet given at The Castleton Hotel, New Castle, on Monday, where they entertained the soldiers.

# Police Officer Uses Weapon

## Fires At Alleged Burgler And Slightly Wounds Him In Leg

### OTHER CASES IN POLICE COURT

Police had a busy time of it over the Memorial Day holiday season. Among the various activities was the wounding of a burglar, the apprehension of a man wanted for some time for his alleged connection with robberies on the south side, the capture of a liquor violator and the apprehension of a shoplifter said to have considerable goods, missed from local stores.

Officer Richards was on duty in the Moravia street district about 2 o'clock Wednesday morning when he noticed a man walk back alongside the store of Jacob Ginsberg, 1210 Moravia street. The officer also went back and while hiding there saw the man at the back of the store carrying a bag. The officer ordered the man to stop. He ran instead. The officer fired in the air three times to frighten the man. The officer heard a sound as if the man was trying to pull the trigger of a gun and shot again at the feet of the man. The bullet hit him in the left leg above the ankle. A physician was called and it was found that the wound was of a superficial character and not at all dangerous.

The man gave the name of Thomas Rosnak and claimed Pittsburgh as his home. He was taken before Alderman J. Lee Cooper Wednesday, where he entered pleas of guilty to the charges of attempted breaking and entering with intent to commit a felony and carrying concealed weapons. He admitted he had attempted to fire at the officer and had then thrown the gun away. It was found by Officers Thomas, McMullen and another assisting officer. He was held for the June term of court and is in the county jail.

**Other Police Cases.**

When John Plonko of South New Castle Boro was found in the south side district early Wednesday morning operating a car with Ohio license 772-895, he was picked up by Officers Thomas, Richards, McMullen and Samuels. He had been under suspicion for some time. Inquiry at Warren, O., developed the fact that the machine had been stolen a few nights previous at a garage there, also $5. Plonko, who has been under suspicion of thefts on the south side in recent months, was taken Wednesday before Alderman J. Lee Cooper, where he was charged with breaking and entering and the larceny of goods from the Miller and Levine store last January.

He entered a plea of guilty and was held for the June term of court.

Called to 1213 Cascade street Tuesday midnight by a report of a fight, Officers Samuels, Lockard and Richards failed to find a fight but did discover Pete Olicz attempting to cart away a five-gallon container in which there was more than a gallon of hootch, they report. Richards gave chase and captured him. They also found wine and home brew. Olicz was taken before Alderman Hamilton Wednesday and entered a plea of guilty to the charge of violating the Snyder act. He was held for the June term of court.

Mrs. Mary Ross, Home street, was arrested Tuesday afternoon in the store of the W. J. Offutt company by Mrs. Minnie McKibben, city policewoman, after she is alleged to have been caught shoplifting. Her home was searched later and it is alleged that numerous articles of clothing were found there, which were from the Higgins store, the Fisher Brothers store and other places. Mrs. Ross claims she purchased the goods. A hearing will be held before Alderman Walter T. Hamilton Friday morning on a charge of larceny made by the Offutt company.

**NO HIGHWAY CRASHES**

State highway patrolmen today reported they had received no information concerning any accidents which may have resulted yesterday. No persons were reported to them as being hurt.

## Roaming Round With Richards

**Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle**

Another thing that this country seems to need is some provision for holidays to come on the day after they are scheduled. It seems to be getting proverbial and traditional that holidays are wet and the day after is bright and shiny.

F'r instance yesterday and today. As a holiday yesterday was considerably wet and today looks like the prize day of the month. But yesterday was the holiday and today is the work day, and what are you going to do about it? The answer is nothing at all, and don't write any letters to the News on the question. This column promises no aid.

This is being written in a hurry. At 9:15 there is a class of students coming to visit the News plant, at 10:15 there is another class, at 2 there is still another class and at 2:30 another class. All of which means that the conductor has four personally conducted tours to take care of with some enlightening remarks being thrown in.

For some reason, traffic on the highways did not appear to be anything extra Wednesday. Perhaps the weather kept the folks off or it may have been that they were on other highways, or it may have been the increase in gasoline prices, but whatever it was, the roads were comparatively clear, that is for a holiday.

Friend called up this morning to know when daylight savings time went into effect in New Castle. The answer is Sunday morning, June 3, at 2 o'clock. And never mind staying up until that time to turn your watch on. You lose one hour of sleep, but you get it back in the fall. Or you can sleep until noon Sunday.

The insurance convention is over and New Castle has put over another nice piece of favorable publicity. The insurance men who were here were practically unanimous in the statement that the New Castle convention was the finest one held as yet, and outstripped the Philadelphia convention of 1927.

The letter of Mrs. R. A. Franklin was received and apparently was a personal message rather than an open letter. Letters like that are always appreciated and the thought expressed finds a responsive chord in this department.

Nothing much today, but if you care for an evening out, come over and sit up with the school board.

## Dog Owners Are Now Subjected To Fines

Owners of dogs, licensed or otherwise, which are permitted to run at large and destroy other people's property, are now being ordered into the police station and fined. The fine now being imposed is $3. It may be raised, if the fines imposed do not put a stop to the dog nuisance. No dog owner is permitted to allow his dog to roam at large throughout the city.

### ESTIMATES 25,000 PEOPLE AT PARK

According to Carl Shaner, general manager of Cascade park, there were 25,000 persons there yesterday.

His statistics are an estimate gathered from an inspection throughout the day.

Thousands of automobiles were parked.

## FARRELL MAN SHOOTS THREE

**One Man Is Dead; One Of Other Two May Be Fatally Wounded**

(International News Service)

FARRELL, Pa., May 31.—Infuriated because he believed that a woman with whom he made his home had been stabbed by one of three visitors, Fillizo Restituto shot one man to death here early today and wounded two others, one probably fatally.

Paul Polenel, 37, of Sharon, was killed by Restituto's shotgun fire, while Sam Marino of Cleveland was probably fatally wounded and Tony Miscastro, also of Cleveland, sustained wounds in the leg and hand.

Restituto confessed the shooting, according to police, who said that Restituto charged Mrs. Sarafina Massano had been stabbed by one of the men.

He was held on a charge of murder.

## Congressmen Take Ride In Dirigible

**Commander Rosendahl Of Los Angeles Takes Party Of Congressmen For Ride**

(International News Service)

LAKEHURST, N. J., May 31.—Seven congressmen made a flight in the dirigible Los Angeles today. The airship took off from the naval air station at 11:15 a. m. E. D. T., for a training flight, Lieut. Commander Charles E. Rosendahl was in command.

The congressional party came here today from Bolling field, near Washington, D. C., in two army airplanes and went from the planes directly to the Los Angeles, which was at the "stub" or portable mooring mast, where it had been placed last night after returning from Pittsburgh. The Los Angeles took off as soon as the congressmen were on board, and they spent about 25 minutes at the station.

The congressmen included George Welsh and John M. Morin of Pennsylvania and C. A. Wolverton of New Jersey.

Commander Rosendahl said he had no particular destination, probably would not go far from the field and would return this afternoon.

**BICYCLE STOLEN**

J. C. Brown of 207 Boyles avenue, reported to the police that a bicycle had been stolen from the garage in the rear of his place on the morning of May 30. It is a Columbia make.

The only person who can get rich by attending to other people's business and neglecting his own is Uncle Sam.

## They're Mine

**By Edna Wallace Hopper**

Many women in my audiences ask whether my teeth are my own. It probably is natural to wonder whether a woman in her sixties has retained her teeth. Mine are my own and I'm careful of them. I have always been as diligent in cleaning my teeth as I have been in caring for my skin. I used to use a dentifrice, a mouth wash and a deodorant to sweeten my breath.

Edna Wallace Hopper as she looks today

Now I am able to obtain all these necessary guards in a tooth paste called Quindent, the five-in-one dentifrice. It has a pleasant, mild taste, is an effective cleanser and polisher and, best of all, contains milk of magnesia, which I formerly had to use separately as a mouth wash. This combats the ever present acids, which are destructive to enamel.

Experts collaborated to produce Quindent. Now you can get it at your local toilet counter. The price is 50 cents for a large tube.

## Continue Probe In Death Of Youngstown Child Found Slain

(International News Service)

YOUNGSTOWN, O., May 31.—Police today are continuing their investigation into the kidnapping of Beatrice Rosenbaum, 10-year-old daughter of Mr. and Mrs. Max Rosenbaum, whose body was found Sunday in a wooded ravine near Salem, O.

Vacant buildings near the spot where the body was found, were search by the police who hoped they might be able to find clues that would throw light on the movements of the kidnapers.
